

## CONGRESS GETS DOWN TO WORK

Administration Wishes for Speed Meet Favor

Way Cleared for Important Business Operations

Reapportionment Will Get Early Consideration

WASHINGTON, April 16. (AP)—Congress needed the wishes of the administration for a fast extra session as it sped rapidly through the second day's tasks at the Capitol today and cleared the way for business operations.

After hearing the first message of President Hoover, both the Senate and House disposed of other immediate business and within an hour adjourned to await the farm relief measures, which are coming from the committee.

The House will receive formally its new \$500,000,000 farm marketing control bill from committee tomorrow and will swing into consideration of it Thursday. The Senate adjourned until Thursday, at which time Chairman McNary of the Agriculture Committee said he expects to introduce the relief bill now in formulation by his committee.

APPOINTMENTS CONFIRMED

The Senate, at the suggestion of Senator Watson, of Indiana, the majority leader, went into executive session after the brief open session today to act upon two of the many important executive nominations forwarded to it a short time before by Mr. Hoover. Immediate confirmations were given the nominations of Charles G. Davis, former Vice-President, to be Ambassador to Great Britain, and of Joseph L. Dixon, former Montana Senator, to be the first Assistant Secretary of Interior. The other nominations were sent to committees in accordance with regular practice.

After Senator McNary announced that the new farm bill will be in

## H JACKERS GET TOMATO LOAD

Mexican Product So Costly in Chicago Now It Pays Bandits to Steal It

NOGALES (AP). April 16. (AP)—A truckload of Mexican tomatoes from the West Coast, including 300 bags, having found its way from war-ridden Mexico to the markets of Chicago, was hi-jacked by Chicago gangsters after the C. H. Weaver Company of that city had purchased the shipment from the Mexico-Arizona Trading Company of Nogales, a telegram received here today disclosed. Owing to the present revolution in Mexico the price of tomatoes in Chicago and other eastern cities has soared to unprecedented heights, \$5.50 being the price per bag.

## VITAL POINTS OUTLINED IN HOOVER'S MESSAGE

WASHINGTON, April 16. (AP)—Here are some of the terse sentences in the first message submitted to Congress by President Hoover:

The government has a special duty not only to further develop our waterways and revise the agricultural tariff, but also to extend systematic relief in other directions.

Every penny of waste between farmer and consumer that we can eliminate, whether it arises from methods of distribution or from hoarding or speculation, will be a gain to both farmer and consumer.

Certain vital principles must be adhered to in order that we may not undermine the freedom of our farmers and of our people as a whole by bureaucratic and governmental domination and interference. We must not undermine initiative.

There should be no fee or tax imposed upon the farmer.

No governmental agency should engage in the buying and selling and price-fixing of products, for such courses can lead only to bureaucratic domination.

The difficulties of agriculture cannot be cured in a day; they cannot all be cured by legislation; they can not be cured by the Federal government alone. But farmers and their organizations can be assisted to overcome these inequalities.

No discrimination against any foreign industry is involved in equalizing the difference in costs of production at home and abroad, and thus taking from foreign producers the advantage the better farmer has in the Federal government alone.

In a large sense we have learned that the cheapening of the tariff decreases rather than promotes prosperity because it reduces the consuming power of the people.

In determining changes in our tariff we must not fail to take into account the effect upon the country as a whole, and such interests include our trade relations with other countries.

The tariff Commission must be given a greater amount of employment in exports to gain a less amount of imports.

I am impressed with the fact that we also need important revision in some of the administrative phases of the tariff. The tariff Commission should be reorganized and placed upon a basis of higher salaries in order that we may at all times command the best and most experienced men of the broadest attainments.

Seven years of experience have proved the principle of flexible tariff to be practical, and in the long view a most important principle to maintain. However, the basis upon which the tariff Commission makes its recommendations to the President for administrative changes in the rates of duty should be made more automatic and more comprehensive to the end that the time required for determinations by the Tariff Commission shall be greatly shortened.

SCORING DELAYS

The formula upon which the commission makes its recommendations requires that years be consumed in reaching conclusions where it should require only months. Its very purpose is to delay.

I believe a formula can be found that will insure rapid and accurate determination of needed changes in the tariff. With such strengthening of the Tariff Commission and of its basis for action many secondary changes in tariff can well be left to action by the commission which at the same time will give complete security to industry for the future.

Furthermore, considerable weakness for publication on the record of the tariff has developed, especially in the valuations for assessments of duty. There are cases of under-valuation of foreign manufacturers, which are reluctant to offer. This has become also a great source of friction abroad. There is increasing shipment of goods on consignment by foreign shippers to persons in the United States, and this practice makes valuations difficult to ascertain. It is desirable to furnish to the Treasury a sounder basis for valuation in these and other cases.

It is my understanding that it is the purpose of the leaders of Congress to confine the deliberations of the session mainly to the questions of farm relief and tariff. In this policy I concur. There are, however, certain matters of emergency that were partially completed in the last session, such as the decennial census, the reapportionment of Congressional representatives, and the revision of the national origins clause of the Immigration Act of 1924, together with some minor administrative adjustments. I understand that these measures can be reundertaken without unduly extending the session. I recommend their consummation as being in the public interest.

HOOVER'S LIST SENT TO SENATE

(Continued from First Page)

While a Democrat, Mr. Colquhoun was a vigorous supporter of President Hoover in the last campaign, head of the Hoover-for-President Democratic organization. Mr. Neff was renominated by President Coolidge to succeed himself, but his nomination failed of confirmation at the last session.

JUDGES NOT NAMED

President Hoover is withholding the names of the Federal judges he has selected for New York. Announcement of those nominations is awaited with more than usual interest as these are the first appointments to be made under recommendation of the New York State patronage triumvirate, which was set up by Mr. Hoover before he became President in an effort to compose differences on this subject between party leaders in the State.

Edmond Machold, State chairman, heads the triumvirate, and the other members are Charles D. Hill, national committeeman, and William H. Hill, who was chairman of the Independent Hoover-for-President organization in the Empire State.

**INDIANS HOLD KEY IN FIGHT**  
Have Strategic Position in Sonora  
Could Command Own Price from Federals  
Their Solidification in Army Raises Problem

(Continued from First Page)

snaked away early this morning and came into the Federal camp where they surrendered. Out of their whistles came the sound of tin cans, and along the international line where they could leap over if pursued. These Eliazas crossing the ice are coming in every day.

A rebel spy arrested by the immigration authorities in Bluebe this afternoon stated that Yucupico without order from anybody, is preparing for an attack upon Naco within the week. The other Indians, meanwhile, have gone into camp about three miles below Agua Prieta. They are in command of Urbalejo, a Yaqui, about 55 years of age, who has fought nearly all the Mexican generals on the field on both the Federal and rebel sides. In fact, the regiments of the Mexican army were seasoned by campaigning against Urbalejo's Yaquis.

**RAIN OF BOMBS**

Having in mind the fact that the only time the Yaquis ever were licked it was by an airplane bomb, the Federals fairly rained explosives on them this morning. Two planes from Naco dropped thirty bombs on them. The only remaining rebel airplane was wrecked yesterday in an attempt to get into the air to escape bombs, so the Yaquis had to take the eggs without protection. According to the Federal aviators, they did not enjoy it much. Several bombs seemed to strike in the middle of the emergency camp. Each such hit was followed by a wild scramble to get out of the way. The aviators were unable to state if they were any casualties.

These Yaqui and Mayo Indians suddenly have assumed a place of great strategic importance in the revolution. Calles has sent a call for assistance to come through Pulido Pass and attack the rebel army on the west coast in the rear, while he advances north from Naco. The Indians stand between Almanzo and his goal. They throw a new moral phase into the war. Their main interest in the rebellion is one of religion.

**PROBLEM CREATED**

Forming the Indians again into an army after they had been scattered by years of killing and effort on the part of the Mexican government will create a fearful problem in the last phases. They undoubtedly will retreat southward into the mountain fastnesses from which even the crack troops of Porfirio Diaz could not dislodge them. They are disgusted with Topete because he ran away from the fight at Naco. They have no use for Escobar and Manzo because of their activities in the election of the president. They seem to be playing a lone hand.

Just before Topete left Naco for the west coast, he had a long talk with an American who has business interests here. Topete told him that what may be never will leave Sonora to cross the border. If it means a brick wall and a firing squad, O. K. He has no fear of the outcome, however. Topete feels that without winning the war, the rebels can keep Calles running around so long that Topete can force a compromise which will mean complete immunity for him.

**RAID FEARED**

The American army officers here feel some apprehension as to the possibilities of another Columbus raid along the border by revengeful rebels, to come when the rebel armies break up into guerrilla warfare as they threaten. This is the reason for such a heavy concentration of troops. This time the rebels will not find our troops with their arms locked in racks and nobody knowing who has the key.

Gen. Manzo got a crushing blow today. For some days he has been angling with Gen. Yucupico to stop over to the Federals. He hoped by way of reward to gain the concession of having all his Mexican property saved to him. Word came from Gen. Calles today that all Manzo could expect is a brick wall and a firing squad. The rebels have promised him a similar honor.

**AGUA PRIETA PLACED UNDER MARTIAL LAW**

**DOUGLAS (Ariz.) April 16.**—Following the killing of Private Ignacio Ramos of the rebel forces in Agua Prieta Monday afternoon by Sgt. Ruperto Escudillo on the spot by a lieutenant-colonel, the city of Agua Prieta was placed under martial law and every resort, store or restaurant selling intoxicants was padlocked.

**DAM WORK RESUMPTION PRESAGES REVOLT'S END**

Resumption of construction work on the Rodriguez Dam and the Alvaron Obregon School has just been ordered by Gen. Abelardo L. Rodriguez, Governor of the Northern District of Lower California, signifying the end of the Mexican rebellion, according to a statement issued yesterday by F. A. Pasquiere, Mexican Consul in Los Angeles.

"The aforementioned measures indicate not only the definite conclusion of the revolt," declared Pasquiere, "but are further proof of the wonderful work of reconstruction carried out by Gov. Rodriguez during his administration. He was busy promoting public works in his district when ill-advised Mexicans decided to rebel against the constitutional authority, and Gen. Rodriguez did not hesitate to condemn the movement, even though some of his best friends were involved in it. He immediately put forth all the resources at his command to cooperate with the Federal government in the quick and satisfactory solution of the military situation, thus setting a worthy example to the country at large."

The Rodriguez Dam had been started on a site south of Tipu Juma. When completed it will be, it is expected, a valuable asset to the farming interests of the district.

# New Discovery Is Triumph In Field Of Modern Chemistry

**Science Proves That Good Health is Largely Maintained by Three Great Mechanisms of the Human Body Which Can Be Stimulated and Invigorated by Certain Basic Elements—Science Succeeds In Combining These Elements In New and Revolutionary Formula—Over Two Years of Laboratory Research Required To Perfect It.**

**WE** are living in an astounding age. An age of swift and steady improvement. In every field of Science investigators are constantly at work learning new things which increase the comfort, health or efficiency of mankind.

Medical Science, like all the rest, has not been idle. It has been attacking its problem, day and night, in every corner of the globe.

As Scientific Investigation discovers more and more about the human machine, the practice of medicine changes—the old is discarded for the new. A hundred years ago, they opened the veins of patients on the verge of collapse. Today, by transfusion, we put more blood in the veins. Fifty years ago, a patient with a dangerously high fever was wrapped in blankets. Today, such a patient is bathed in cold water or covered with ice packs. Ten years ago—five for that matter—we gave Calomel to stimulate the liver.

Today—we know that contrary to the belief adhered to for many years, Calomel has no action on the liver or bile flow—and that it confines its action solely to the intestinal tract.

Thanks to scientific investigation, Yellow Fever has been conquered; Diabetes can be held in check indefinitely; Typhoid can be prevented; the mortality from Diphtheria has been greatly reduced. But these are all specific diseases with which comparatively few are afflicted.

What has Science learned that will bring relief to the countless thousands of half-sick, run-down, nervous and depressed men and women who are the victims of such troubles as biliousness, indigestion, constipation, acidosis, toxic poisoning, lack of vitality, high blood pressure, rheumatism, disturbed metabolism, etc.? What about them?

Within recent years Science has discovered that good health is largely maintained by three great mechanisms of the human machine, composed of certain organs and fluids, working in harmony together.

Furthermore—and this is most important—we have recently learned how to stimulate the action of the organs and fluids which comprise these three all-important mechanisms.

In making clear just what this means to the average man and woman it is necessary to describe these three mechanisms of the body and tell how Science learned to stimulate their action.

The first of these great mechanisms comprises the liver and gall bladder. Roughly speaking, the main function of the liver is to create bile. This has been known for more than its century. It was also known that bile was necessary to the process of digestion. But how all-important was the flow of bile into the digestive tract, authorities of twenty-five years ago did not even dream.

Advanced medical opinion now holds that bile is little short of a magic fluid. A life-sustaining essence which performs many vitally important functions, all of which are necessary to the delicate chemical balance which maintains metabolism in the human body.

We will discuss here only one of the functions of the bile as it part in the process of digestion—and show how we have gradually come to realize just what bile does toward the proper assimilation of food and the distressing symptoms which follow when the flow of bile is insufficient.

## Facts About Sargon

**Sargon is a new medicinal tonic preparation, based on some of the recent knowledge of certain organs and fluids of the body gained by scientific investigation.**

Introduced in the United States only a few months ago, Sargon has enjoyed an immediate and overwhelming success. People everywhere have been quick to recognize it as a new and epoch-making product. In each of the leading cities where it has been introduced, an average of 50,000 bottles has been required to supply the unprecedented demand, and wholesale druggists are purchasing it in carload lots.

Although some of the statements made in the Sargon advertising are contrary to general belief, they represent the findings of the greatest medical investigators of the world.

The reason for the present tremendous demand for Sargon is, briefly, this: It is the scientific answer to countless run-down debilitated people who require medical assistance in regaining good health in the face of modern trying conditions of living.

Most of the "so-called" stomach trouble was not in the stomach at all. The liver, in most cases, was to blame. If the liver failed to manufacture enough bile, the gall bladder did not inject its contents into the duodenum in sufficient quantities for thorough digestion to take place.

The investigators announced this discovery. They suggested that stimulation of the liver was necessary in the majority of cases of indigestion. The medical world adopted the suggestion. Calomel was supposed to be the drug that could be relied upon to stimulate the liver and increase the flow of bile. Calomel was, therefore, given to men, women and children, year after year.

But stomach troubles did not lessen. In fact, they seemed on the increase. Something wrong, said the investigators. "Let's look into this Calomel business," they said. This is the astonishing conclusion that they reached:

Calomel has about as much effect on the liver and bile flow as sassafras tea.

Here are the recent words of an eminent authority on the subject: "Contrary to the belief adhered to for many years, Calomel has no action on the liver or bile flow. This belief existed and was based on the color of the stools after the administration of Calomel. It has, however, been thoroughly demonstrated that the characteristic greenish stools are colored by the Calomel itself and does not indicate the presence of bile."

But since Calomel would not stimulate the liver, what was to take its place? The problem was up to Science—and once more Science responded. Many drugs and combinations of drugs were tried by investigators. At last they found what they wanted. It was a substance that could be taken in quantities, yet its effect on a sulky liver was magical. It is described by a recent International Authority as follows:

"The most powerful stimulant to the secretory activity of the liver which we possess."

It is, therefore, possible today to stimulate the flow of bile from the liver into the digestive tract and in this way to prevent or relieve most of the "so-called" stomach trouble which has been so prevalent in the past.

We now come to the second great mechanism of the human body which is important in keeping that machine running true and strong. Like bile, it is a fluid; and like bile, it is vital to human life. What has Science learned about this fluid recently that is of moment to the average man and woman?

The second great mechanism of the human body under discussion is the blood stream. The blood is a red fluid, circulating through the cavities of the heart, the arteries, capillaries and the veins. We all know that it carries oxygen and nutrition to the tissues throughout the body and that it contains red and white blood corpuscles.

But, here is something that all of us don't know about. It was discovered by path investigators after years of study and experiment. It is of tremendous importance to the general welfare of the body. It is called Haemoglobin.

Haemoglobin is found in and is a part of the red blood corpuscles. The chief function of the red blood corpuscle is to absorb oxygen from the air we breathe and convey it throughout the body. The investigators learned that Haemoglobin is the oxygen-carrying agent in the red blood corpuscle. It was found to be plentiful in rich, healthy blood and diminished where the blood was in an impoverished condition.

Since Haemoglobin conveys oxygen throughout the body, an insufficient supply of it in the blood stream means that every cell, every tissue, every organ of the body is being partially smothered, resulting in the following symptoms:

Pallor of the Skin, Poor Circulation, Cold Hands and Feet, Susceptibility to Coughs, Colds and other Germ diseases, General Debility and Lack of Vigor. The condition is known to the medical profession as Simple Anemia.

The discovery of Haemoglobin and its functions also revolutionized the old-fashioned theories about "Impure Blood." For years, we thought that boils, pimples, etc., were caused by impure blood and have taken so-called "Blood Purifiers" to overcome such troubles.

There is no drug or medicine that is an effective blood purifier. Impoverished blood—lacking in Haemoglobin—is found to be in anti-toxic (germ and poison combating) powers. Boils, pimples and various other skin eruptions are caused by an infectious germ lodging in the skin which the impoverished blood is unable to combat.

Having discovered Haemoglobin and learned of its importance to the blood stream, the investigators attempted to find a method by which the supply of Haemoglobin could be increased. An investigator found that Haemoglobin was largely composed of a certain mineral. He found that when this mineral was combined with a certain fruit juice it was more readily absorbed by the blood stream than in any other form and was highly effective in increasing Haemoglobin.

When this compound was given to pale, tired, listless people, suffering from impoverished blood, most of them showed remarkable improvement.

**Amazing Discovery**

The Endocrine glands comprise the third great mechanism of the body. It is only in recent years that the importance of these glands has been generally recognized. Certain discoveries made by a well-known investigator aroused the interest of the scientific world. From that time on Science has more than made up for its neglect of the glandular system in the past. The subject has become so important in recent times that many investigators have been giving their entire attention to the glandular system alone.

## THIEVING HOBO THING OF PAST

Freight Car Robberies Show Huge Decline

Railroad Police Awarded Praise for Efforts

Shipments in Transit No Longer in Peril

ATLANTA (Ga.) April 16. (P)—Freight car robberies in the United States in 1928 averaged a loss of only 1.8 cents per car, R. H. Aishton, president of the American Railway Association, told the ninth annual convention of the protective section of that association here today.

The average loss attributable to thefts and robberies of freight cars was less than the cost of mailing a letter, despite the fact the railroads handled billions of dollars of freight last year, Mr. Aishton said. "Claims growing out of reported thefts and robberies and paid last year totaled \$928,563, the lowest amount for any year since 1914 and a reduction of \$222,573, or 19 per cent, compared with 1927," he said. "The increased efficiency and vigilance of the police forces of the various railroads, as indicated by the continued reduction that has taken place each year in the amount of losses resulting from robbery, has virtually driven out of the line of the various carriers the gentry that formerly lurked around railroad yards and subsisted on what they could steal from trains and also from freight houses."

Court Denies Censuring of Attorney Caused Bias

Supreme Tribunal Also Sets Aside Other Arguments

SAN FRANCISCO, April 16. (P)—Ruse of St. Clair Beitzel, awaiting death in San Quentin prison for the murder of 19-year-old Barbara Mauger near Los Angeles, today was denied a new trial by the State Supreme Court.

His appeal for a new trial was based on the contention that his attorney, Vernon Hamilton, was severely censured by the court during the first trial, and that this action had a tendency to prejudice the jury against him. The Supreme Court held the action of the court was in no way responsible for the verdict. Beitzel, former resident of Philadelphia, left that city in 1927 with Miss Mauger, and lived with her in Los Angeles, the testimony showed. As she was about to become a mother, Beitzel drove her to a lonely canyon in the Santa Monica hills north of Hollywood and shot her, it was said at the trial. The jury returned a verdict of guilty against Beitzel in less than an hour, and made the death sentence mandatory. The plea for a new trial, which the lower court denied, also was based on several other technicalities, which the Supreme Court held were not sufficient to warrant setting aside the decree of the Los Angeles Superior Court.

# Pianos, too, have changed

**J. & C. FISCHER**  
\$1075.00

A small down payment will place it in your home. Two and a half years in which to pay the balance.

IF YOU own an old-fashioned piano you may be sure that people find it nearly as conspicuous, as mirth-provoking and as awkward as clothing of the same vintage. Don't let an out-of-date instrument hint that you can't keep up with the times. Trade in the old piano for a handsome J. & C. Fischer Baby Grand in the style of Duncan Phyfe. This dainty little instrument brings to your home all the delicate charm which marks the work of America's greatest furniture designer. In Queen

Anne furniture, the characteristic motif of the chair back is a vase; in Hepplewhite a shield; Duncan Phyfe chose for his, the classic Greek lyre. In the Duncan Phyfe Baby Grand, this graceful lyre motif has been used in the desk and again in the upright supports. The legs are chastely fluted. Only 5' 3", this little Baby Grand can be attractively placed even in a very small room. Come today and see how clear is the grain of its rich brown mahogany; hear how sweet and mellow is its tone.

## LOT WAS ONCE GIVEN AWAY

Real Estate of Little Value In 1883 Costs Real Money Now

REDLANDS, April 16.—William E. Howard, well-known local capitalist, today paid \$80,000 for a block of land on West State street that was given away in 1883. The owner of the land at that time gave it away with the provision that a building would be erected on it. And the Windsor Hotel Building was erected. It was given to Samuel J. Hayes and associates, who built the block.

Mr. Howard is planning improvements to the business block, which has several store-rooms and a large commercial hotel.

of the bureau shall be brought about as rapidly as possible.

"Viewed over a term of years, the Indian agent, as such, with his abnormal powers, shall be dispensed with."

"In so far as it is feasible the problem of health and education for the Indians shall become a responsibility of the various States. Certain assistance for these purposes should be provided by the States wherever it is equitable, and desirable to do so."

SCHOOLING INDIANS

"New Indian schools should only be provided if it is not possible to merge the training of the Indian into the school system of the States. In so far as it is possible, scholarships in the institutions of higher learning of the country shall be provided for these Indian boys and girls who are capable of going beyond the ordinary high-school training."

"The educational program for the Indian should be placed under the supervision of the Bureau of Education."

"The health program should be placed under the Public Health Service."

"In so far as it is possible, except on a few large reservations that are appropriate for satisfactory life for the Indians, there should be continued allotment of land with full ownership rights granted to the Indians."

"It shall be the aim to provide employment for Indians for all occupations possible in connection with Indian communities."

AS TO INDIAN LAWS

"The general policy should be to increase the facilities for the care and development of the Indian for a short period of time with the general plan in mind of eliminating the Indian Bureau within a period of, say, twenty-five years."

"No new appointments should be made in the Indian Bureau except in following out the above program."

"In so far as it is possible, general legislation and general appropriations from Congress shall be sought rather than specific legislation for specific Indian groups or to solve individual Indian questions."

"A survey shall be made of all existing laws with which the Indian question is involved, so that proper laws can be drawn receding former actions which no longer are necessary, and an adequate legislative program developed for the future."

Mr. Rhoads is a member of Brown Brothers, bankers, of Philadelphia, and is giving up his large business interests for this public service. There is a tradition of Indian service in his family, his father having been associated with organizations favorable to the Indians for many years. Mr. Rhoads has been president of the Indian Rights Association for the past year.

JUGO-SLAVIA INDORSES ANTICAS CONVENTION

BELOGRADE (Jugo-Slavia) April 16. (AP)—King Alexander today signed an international convention prohibiting gas warfare. A special courier will take the document to the Quai d'Orsay in Paris, where it will be deposited.

## FROST BENEFITS GRAPE GROWER

Reduction of Crop Boon, Says Vineyardists Head

SAN FRANCISCO, April 16. (Exclusive) — Although California's grape acreage suffered severely from the recent killing frost in the producing areas, E. M. Sheehan, president of the California Grape Growers' Exchange, declared today the natural recuperative powers of the vine will overcome most of the loss which at most will not be more than 20 per cent.

Such a loss is expected to prove a boon rather than a detriment to the grape industry and is seen as a potent factor in recovery from the shrunken prices on last year's crop.

## Father Ricard's Chances Better

Reduction of Crop Boon, Says Vineyardists Head

SAN JOSE, April 16. (Exclusive) — Although not yet out of danger, Rev. Jerome S. Ricard, meteorologist of Santa Clara University, continued to gain today in his fight against bronchial trouble which grew out of a severe cold and caused a dangerous weakening of his heart action.

His physicians declare he now has more than a mere chance of recovery, despite his 79 year.

HOUSTON MAYOR IN RACE FOR GOVERNOR

HOUSTON (Tex.) April 16. (AP)—Oscar F. Holcombe, four times Mayor of Houston, today announced his candidacy for Governor of Texas in the 1930 Democratic primary.

## FATHER WANTS SON PUNISHED

'Model Youth' Admits Attack on Girl Student

OAKLAND, April 16. (Exclusive) — With tears streaming down his face, Thomas Murray told Police Judge Bacon today that he wanted to see his son, Rod Murray, so-called "model youth," punished for an admitted attack on Miss Mary Addison, 19 years of age, university student living in this city.

The Murray youth, 17, was a regular steno at Sunday-school and was known among his friends and neighbors as incapable of wrong. He has confessed accosting three other young women.

## GAINS REVEALED IN EMPLOYMENT

Pay-Roll Totals for March Also Show Increase

WASHINGTON, April 16. (AP)—Increase of eight-tenths of 1 per cent in employment and 1 per cent in pay roll totals for March as compared with February was announced today by the Department of Labor.

Based on returns from 27,825 establishments with 4,815,898 employees, the report, compiled by the Bureau of Labor Statistics, shows increases in each line of employment except coal mining, in which both anthracite and bituminous coal suffered from seasonal declines in production. Manufacturing employment is reported at a higher level in March than at any time since April, 1927.

## Charges Added in Impeachment

Pay-Roll Totals for March Also Show Increase

BATON ROUGE (La.) April 16. (AP)—The Louisiana Senate today decided to receive additional impeachment charges against Gov. Long from the lower house, leaving the exact date of trial to be fixed later. The trial date will depend on the length of time the House remains in session.

Meanwhile, the House of Representatives today began investigation into the charge that the Governor misappropriated public funds, one of the charges remaining after he had been impeached on two counts.

HEAT RATE QUERIED ANNOUNCED

SAN FRANCISCO, April 16. (AP)—The State Railroad Commission today announced it would voluntarily start an investigation in an asserted deviation from rates fixed by that body in steam heat supplied by cities by the Great Western Power Company.

## JAPAN TO KEEP FORCE IN CHINA

Nationalists Plead for Delay in Shantung Evacuation

TOKIO, April 16. (AP)—The government is understood on reliable authority to have decided to seek imperial sanction for postponement of the withdrawal of troops from Shantung in consequence of repeated requests from the Nationalist government of China asking that the evacuation be delayed.

The Nationalists are understood to have informed Tokio that at present they are unable to guarantee the safety of Japanese lives and property in Shantung if the Japanese troops are withdrawn.

## Yeast rids the body of constipation poisons — says Health Director of Los Angeles

DR. GEORGE PARRISH

GUARDING the daily health of thousands is the responsibility of Dr. George Parrish, well-known physician and Health Officer of Los Angeles.

From years of experience Dr. Parrish concludes that "constipation is the bane of existence—the enemy of the human race." To combat the poisons from clogged intestines he advocates the corrective food, fresh yeast.

In a recent survey in the United States, half the doctors reporting said they prescribed fresh yeast for constipation and related ills.

Fleischmann's Yeast is fresh. Unlike dried or killed yeast it contains millions of living, active yeast plants which, in their passage

through the intestine, purify the whole system; check the spread of poisons. Digestion improves; complexion clears. Stamina and resistance are increased.

Eat three cakes of Fleischmann's Yeast every day, one before each meal or between meals, plain or in water, cold or hot (not scalding). To get full benefit from yeast you must eat it regularly and over a sufficient period of time.

Buy 2 or 3 days' supply at a time and keep in any cool, dry place. At all grocers and many leading cafeterias, lunch counters and soda fountains. Begin now and know what real health and happiness can be.

WELL-KNOWN HEALTH OFFICER of Los Angeles, Calif.; for eight years Health Commissioner of Portland, Oregon; former lecturer on Public Health at the University of Oregon Medical School; for five years connected with the St. Louis General Hospital; Vice-president, Western Branch of American Public Health Ass'n.; member, Los Angeles County Medical Ass'n.; past-president, Medical Society of Portland, Oregon.

"Constipation is the bane of existence—the enemy of the human race. Yeast relieves constipation by stimulating the intestine, not by irritating it. It benefits the entire system by eliminating the poisons and waste products of the body... Yeast is an easily digested food with medicinal value."

*George Parrish*

AS THE PICTURE BELOW SHOWS, the digestive tract is a continuous tube, from throat to large intestine. 90% of ills start here, when poisons from a clogged colon spread to the system. But here yeast works. Fleischmann's Yeast, eaten regularly, keeps the colon clean, active, healthy—checks the insidious poisons of constipation.

## NOTICIAS MUNDIALES DE ULTIMA HORA

FOR EL PROFESOR RAMON GUERRERO  
Encargado de la Sección Española de este diario

### NOTAS TELEGRAFICAS

Berlin Dice que los Pagos son De-

PARIS, Abril 16.—El doctor Hjalmar Schacht, jefe de la delegación alemana a la segunda comisión de Dawes, dijo hoy a sus colegas de la referida comisión que la cuantía de las anualidades que por reparaciones exigen las naciones aliadas excede de la capacidad de pago de Alemania. Ha prometido presentar mañana los cálculos hechos por él, que serán discutidos y confrontados con el memorándum presentado al tablado por los países acreedores.

En algunos círculos se cree que la actitud del doctor Schacht representa meramente el punto de vista del gobierno alemán, que será sometido a los peritos en reparaciones juntamente con el de los aliados. En otros círculos se considera que, con su declaración, el citado delegado rechaza las cifras de los aliados.

Algunos peritos juzgan que la actitud de la delegación alemana indica que no debe considerarse el memorándum de los aliados sino como un paso en las negociaciones que están en curso. Según este modo de ver, las cifras que va a presentar mañana la delegación alemana servirán para que la comisión pueda compararse con las de los aliados antes de dar otro paso en este asunto.

Algunos Puntos Vitales Tocados en el Mensaje de Hoover

WASHINGTON, Abril 16.—He aquí algunas de las francas afirmaciones contenidas en el primer mensaje leído por el Presidente Hoover ante el congreso:

El gobierno recibió en las recientes elecciones el mandato especial de las elecciones, no sólo de seguir impulsando nuestros canales de navegación y de revisar el arancel de productos agrícolas, sino también de audir sistemáticamente con auxilio y ayuda a muchas partes.

Tanto el labrador como el consumidor saldrán ganando con cada centavo que pueda ahorrarse en las transacciones intermedias, ya sea que ese centavo se estuviera gastando de más por los malos métodos de distribución o por los asces de la especulación.

Hay que ajustarse a ciertos principios vitales para no maliciar la libertad de nuestros agricultores y del pueblo en general con la mediocridad de las oficinas de gobierno. No debemos, por ningún motivo, atajar la iniciativa del pueblo.

Ninguna dependencia gubernativa deberá ocuparse en comprar, vender o fijar precios a los artículos de producción, pues con esa se va directamente hacia la dominación burocrática.

No pueden cursarse en un día las dificultades de la agricultura, ni pueden subsanarse todas por medio de leyes; tampoco puede vencerlas sólo el gobierno federal. Pero puede brindarse ayuda a los agricultores

res y a sus sociedades para que dominen estas desigualdades.

De un modo general hemos llegado al conocimiento de que una remuneración mesquina al trabajador, antes merma que promueve la prosperidad permanente, ya que reduce el poder de consumo del pueblo.

### NOTAS LOCALES

Sigue Tratándose de Poner a Flote un Vapor Noruego

Anoche, a la hora del flujo, se hicieron esfuerzos para sacar del atoladero al vapor noruego Evanger, que encalló ayer, antes de la madrugada, a una milla al norte de Huntington Beach, y hoy a las 6:17 a.m. hora de alta marea, se harán nuevos esfuerzos con el mismo fin.

El trabajo de salvamento le ha sido encomendado a Merrill, Chapman & Scott.

El Evanger, barco de 10,000 toneladas, hacia rumbo a Sudamérica cuando se fue costado contra una playa arenosa en diez pies de agua. Las olas lo están barriendo continuamente, pero la media docena de pasajeros que lleva a bordo y los tripulantes, en número de treinta y cuatro, han permanecido en el vapor, y parece que no corren peligro.

Robert S. Gardner, encargado inmediato de las operaciones de salvamento, ha logrado fijar anclotes a unos 500 yardas mar adentro, y va a hacerse uso de los malacates del vapor para halarlo de la popa hacia el agua profunda. Está prestando ayuda el remolcador Peacock, al mando del capitán M. A. Varnum.

El Evanger tiene 365 pies de eslora, fue construido en 1920 en West Hatfield (Inglaterra), y trafica en la costa sudamericana del Pacífico por cuenta de Westland-Larsen y Compañía.

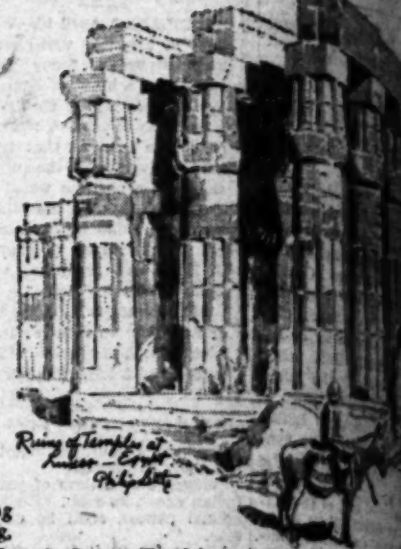

Tal vez Fallase una Atropellada por un Tranvía Eléctrico

La señora Mirra Brown, de 60 años, modista, con domicilio en el 1236 de la avenida South Curson, fue lanzada ayer a 150 pies de distancia por un tranvía de la línea Corta de Venecia, perteneciente a la compañía Eléctrica del Pacífico. El lamentable accidente ocurrió en la esquina de la avenida de Curson y el bulevar de San Vicente.

Sufre la señora una fractura en el cráneo, así como otra en la pierna, y han podido apreciarse otras numerosas lesiones. Hay que tomar en cuenta, asimismo, la tremenda conmoción que sufrió la atropellada. Los médicos de la Casa de Socorro de la calle de Georgia, adonde fue trasladada la señora Brown, opinan que se halla moribunda.

Dice el motorista Glasinger que la señora Brown caminó hasta ponerse frente al tranvía en marcha, y no hizo ningún caso de las señales que él le hacía. Los testigos presenciales le dieron la razón a Glasinger, quien no fue detenido.

# Europe via the Orient —\$793

There is a new and delightful route to Europe. It holds all the strange beauty and glamor of the Orient, yet costs little if any more than the old direct route.

You visit Honolulu, Yokohama, Kobe, Shanghai, Hong Kong, Manila, Singapore, Penang, Colombo, Suez, Port Said, Alexandria and enter Europe through Naples, Genoa or Marseilles.

At every port you have from several hours to several days for sightseeing. Or you may stopover for a week, two weeks or longer, continuing when you are ready on a liner exactly like the one on which you started.

After your tour of Europe you may return to New York or Boston on one of these same Round the World President Liners. They sail fortnightly from Naples, Genoa and Marseilles via the sunny southern route.

Then, if you like, you may continue to California via Havana and

the Panama Canal for a slightly additional amount.

You enjoy all the advantages of a trip Round the World as well as the trip through Europe.

You sail aboard palatial President Liners. They are luxuriously appointed. All cabins are amiable. All are outside, equipped with beds, not berths. Spacious decks. A swimming pool. A cuisine famous among world travelers.

Your fare includes transportation, meals and first class accommodations aboard ship—\$793 from Los Angeles or San Francisco to Europe.

There is a sailing every week from Los Angeles and San Francisco.

## Let your tooth paste buy you a breakfast set

If you use 12 tubes of tooth paste a year (do) Listerine at 25c saves you \$3 over the 50c class. A worth while saving when the family is large. Spend the money as you please—a suggestion is only a suggestion.

## Will you try this dentifrice —the most successful in history

DOUBTLESS you are using a good dentifrice which you pay approximately 50c or more. We urge you to try Listerine Tooth Paste for its cleansing power. For its mouth-cleansing after effects. For its flavor. For its economy. predict that you will never return to your first dentifrice.

Listerine Tooth Paste came into being less than five years ago. We had labored and studied 10 years to perfect it. We aimed to produce an ideal dentifrice at a common sense price—one worthy to receive Listerine name.

Now it is an outstanding leader. Never in history has a dentifrice succeeded so mightily—on its own alone. It has stood the only kind of test that matters—the test in the hands of the people. Millions have rejected costlier dentifrices in favor of it. Like they were at first skeptical.

Get a large tube of Listerine Tooth Paste and let it prove its merit to you. Lambert Pharmaceutical Company, St. Louis, Mo., U. S. A.

ESTABLISHED 1889 • STATE SUPERVISED

1929 is rewarding careful savers

## A bird in the hand

The careful saver wants good interest on his dollars now—not possible profits later—because he knows that where there is a chance of profit there is always a chance of loss.

And that is the reason why this year more people are placing their funds in Pacific States Savings than in any previous time in this institution's long history of steady growth.

The 6% paid by Pacific States Savings is—and should be—the last consideration of the cautious minded.

Of greater importance is our long record of unbroken stability.

Of first importance is our outstanding strength, liquidity and conservatism demonstrated by our current Statement of Condition. Send for it and learn the facts that have led 48 thousand careful savers to place their funds here.

# Los Angeles Prosecutor May Move After Impeachment Hearing

## FITTS TO STUDY HARDY EVIDENCE

Aide Gets Full Testimony of Sacramento Trial

Reason for Action Guarded by Wayne Jordan

Senators Will Hear More of Deposition Today

(Continued from First Page)

be completed this week disappeared when it was decided to read the whole deposition.

The morning started with Assemblyman Hornblower in the role of Mrs. Kennedy reading the answers and Assemblyman Sewell propounding the questions asked by Assemblyman Little and Hornblower during the two days of deposition taking in Portland. Mr. Sewell used the microphone but Mr. Hornblower, who is not badly named, felt he needed no mechanical contrivance to aid him in informing the Senate of what the witness said.

The preliminary questions were read and recess time came. As senators and defense counsel went into a huddle, drew in Lieut.-Gov. Carnahan, who is anxious to save time, and came forth with a stipulation that further reading of the deposition might be dispensed with, but that it be printed in the journal, subject to objections and rulings, and counsel, in the final argument might read at length the important parts.

**MOTION OPPOSED**

Mr. Carnahan propounded this situation to the Senate. Senator Inman of Sacramento put the motion, declaring that much time might be

saved by this arrangement as 95 percent of the matter in depositions are of no value, anyhow.

Senator Swing of San Bernardino, who believes in strict adherence to the rules, opposed, stating that the logical follow-up of such a precedent might be the printing of all the evidence in the journal, with the Senate absenting itself and reading the testimony at will or never. He gave his opinion that the deposition would never be read by any Senator and expressed his astonishment at Senator West of Oakland, who said he reads it all every night.

"Every member of this court is on trial before the public to see if he performs his duty," said Senator Swing. "Speed in the way suggested is not proper."

**MORE ARGUMENTS**

Senator Carter of Wilmington and Senator Cleveland of Watsonville urged that all of it be read. Senator Cleveland said the Senate would not be in a position to vote intelligently if a motion to disallow is made after the managers present their case.

Mr. Little said the managers want to present the case in the proper manner, but have the convenience of the Senate in mind, but Mr. Hornblower got up and expressed himself as believing the deposition vital to the case and recounted that the defense refused to enter into a stipulation whereby both sides might read what they deemed important portions.

Much then was made over the "disagreement" between the managers and Senator Inman said disagreement is human nature and that it would be extremely odd if five lawyers were unanimous in their manner of presenting a law suit. The noon recess then intervened.

The managers had a conference at lunch time. When court resumed in the afternoon Mr. Little said the managers "are in agreement" on the subject of feeling that the deposi-

tion should be read but desired to accommodate the Senate by hearing the pleasure of that body and asked leave to withdraw from the stipulation.

## ROLL CALL DEMANDED

Senator Rochester of Los Angeles, however, declared that it is within the right of the Senate, as a court, to determine what procedure shall be employed toward the deposition of evidence, renewed the motion and demanded a roll call.

His motion was defeated 29 to 8 and the managers took up the reading of the 260-page document. It is apparent from the questioning that it was a difficult matter to pin Mrs. Kennedy down and it was not until the second day of examination that much of value was obtained from her. In fact, at one time during the examination, she broke down and wept, was comforted by Little and Hornblower, wiped away her tears, made up and resumed the session. And at the close of the deposition came the famous prayer, when she fell on her knees in the examination room and Little and Hornblower did likewise.

**HARDY'S ADVICE**

She was asked about Judge Hardy's advice in business transactions at the temple and said she talked to him about them as well as the tax on the temple radio. Judge Hardy, she said, got a good deal of benefit out of the use of the radio and while she was proud to have him as a speaker, the thought of monetary consideration did not enter into the matter.

The judge, she said, once brought to her and introduced to her a lawyer who was to handle the temple litigation.

Then, when the questioning turned to the time Mrs. McPherson disappeared, she said: "I don't believe I can answer any more questions. I have to go home." The questioning was resumed the next morning.

tended by Judge Hardy, Attorney Veitch and Woolley, herself and Mrs. McPherson, in the temple, the morning Mrs. McPherson was called before the grand jury to tell of her alleged kidnapping experience. She said Judge Hardy advised in favor of appearing before the grand jury declaring that if the women stood on their constitutional rights and refused to testify it would have a bad effect on the public mind. In this he was supported by Veitch while she herself and Woolley were against testifying. Mrs. McPherson, she said, was willing to do as the law told.

The Burns detectives of whom much has been said in this trial, were hired once by her and once by Judge Hardy and they reported to him, she testified.

**OTHER INCIDENTS**

Mrs. Kennedy deposed that when Mrs. Sleiff came to the Temple she was very evasive but she could not recall whether a statement was taken from the woman and the statement given Judge Hardy. She said she sent Mrs. Sleiff to Judge Hardy because she wanted him to check on her story.

As to McKinley, the blind Long Beach lawyer who told them that he was negotiating with two of the asserted kidnappers, she said she was afraid of him and then recounted the transactions carried on with him, in which Judge Hardy entered, according to his own testimony as given in the Municipal Court hearing.

She was questioned closely as to the items which appear on the Angelus Temple ledger in the "legal and defense" column which also carried Judge Hardy's name. In this part of the examination it was brought out that a check for \$250 was drawn in Judge Hardy's favor to pay off the Burns detectives but was avoided.

## MORE WARNINGS

Mr. Jordan brought up and presented to Secretary Beck of the Senate, on behalf of the defense, grand jury transcripts, Wiseman and Or-

miston affidavits, a letter from Edward Martin, Ormiston's Chicago lawyer, a divorce complaint against Mrs. Sleiff and a statement taken by the District Attorney from Woolley.

Additional warnings were issued today against any further lobbying tactics by persons interested in the case. In many quarters it was regarded that several sentences in Senator Swing's speech, in which he said the Senate now is on trial itself before the eyes of the public, had reference to this situation.

The corps of detectives which last week infested hotel lobbies and corridors, vanished immediately after newspaper accounts of the situation were published, but it is believed that others, not quite so crude in their activities may have taken their places. Indiscreet actions by certain legislators and one prominent official continue to be the subject of considerable gossip.

**AIR CRASH VICTIM DIES**

DETROIT, April 16. (AP)—William C. Naylor, 39 years of age, chief engineer of the Stout Engineering Laboratories, who was injured Saturday in the airplane crash at the Ford Airport in which H. Kreider of Eaganston, Md., and Capt. Alan E. T. Bruce of Akron, O., were killed, died today at the Henry Ford Hospital.

## No Trace Found of Fishing Boat

GALVESTON (Tex.) April 16. (AP)—After a day and night of searching by boats of the Coast Guard no trace has been found of the fishing schooner Thistle, reported in distress about forty-two miles east of Freeport.

The vessel carried a crew of four.

## Portugal Nips New Revolution

LISBON (Portugal) April 16. (AP)—Another attempted revolutionary movement in Portugal apparently has been frustrated by the police.

A note published in the press today stated the authorities arrested several political figures hostile to the government in a seriously complicated, proposed revolutionary movement against the dictatorship which the police have broken up completely.

# Distinguished Transportation for many years to come

THE purchaser of a Packard Eight does not invest in a car. He invests in distinguished and trouble-free transportation—not for one year, but for many years to come.

If he chooses to buy from income, as so many do, the beauty, comfort and distinction of his Packard remain a source of pride and satisfaction for many times the payment period—long after the purchase price has been forgotten.

For the Packard Eight is a long-lived car—precision built and precision protected. Its characteristic beauty is always up to date, for Packard has never depreciated cars in the hands of owners by frequent and radical changes in design.

Most owners, therefore, keep their Packards twice as long as they once kept ordinary cars. And this means that they enjoy the luxury of Packard transportation at costs no greater than they would pay for motoring in cars with far less to offer in prestige, in beauty and in performance.

Why not invest now in luxurious Packard transportation? Packard offers three complete lines at three distinct ranges of price. Each model in each line is a Packard in every sense of the word. Packard builds to a single standard of quality—the highest. The differences lie only in size, power and the degree of individuality available in appointments, upholstery and color.

The Packard Standard Eight (reduced March 4th) is priced at \$2275 to \$2675 at the factory. The Custom Eight lists at \$3175 to \$3850. The Eight De Luxe ranges from \$4585 to \$5985—with individual custom cars on the De Luxe chassis available on order.

When may we place a Packard Eight at your disposal for a demonstration drive?

If you prefer to buy out of income, you will find the Packard Payment Plan most attractive. Many take possession of their new cars without any cash outlay because the used car allowance equals or exceeds the down payment on the new car.

N. Y.EXPLORER PAYS  
BRITONS HONORCommander Byrd Addresses  
Tribute to NationPredecessors' Work Cleared  
Way for Him, He SaysEnglish Pioneers' Hardships  
Untold by Sufferers

NEW YORK, April 16. (Exclusive) At the request of the editors of the Evening Standard of London, Commander Byrd has sent to him and to the New York Times radio station a message for the British people which reads as follows:

"We are happy to accept your suggestion that we send a message through you to our friends in Great Britain. We wish to be sure that they understand that we approach our problems with respect for those who have preceded us. They were more the pioneers than we who follow. The best we can hope to do is to add a little to the mass of scientific data they collected."

CLEARED WAY  
"Their trials and the march of science have lessened for us the difficulties they met. We know now from first hand experience as we could not have visualized from their modest records the frightful hardships they endured and we wonder if it is probable that their own countrymen admire their needs so much as do we—forty Americans who can tell a new story of their struggles."

"Even if international law, vague as to Antarctica, may not be satisfied with their claims of discovery, international courtesy acknowledges them. Sportsmanship is more important here than the strict letter of a rule. Therefore, whatever new land we have discovered or may discover, within the British claims, we see no reason for controversy."

SCIENCE INTERNATIONAL  
"As to science, it knows no national boundaries. Antarctica is big. There is much to be done. The more who come here the better. We will have a common cause with others who sail southward for knowledge."

"So we wish to renew through you our offer of the courtesy of our facilities both ashore and afloat to the most scientific of the early pioneers. Sir Douglas Mawson, who has himself so generously offered us co-operation after aiding us with his advice."

"RICHARD E. BYRD."

Commander Byrd has been brought in close contact with the British people under circumstances which enabled him to know them intimately and to form many warm friendships among them. He has referred to those circumstances many times in his lectures.

"I have been drawn close to the people of Great Britain by the play of circumstances," he said in one lecture. "As a boy I was nursed back to life from a desperate illness in the Royal Naval Hospital at Plymouth. I was again drawn to them in striving side by side with them in a common enterprise. Several years later the bond was made still tighter by sharing a common sorrow."

UNDER THE RESERVE  
"These experiences enable me to see beneath the surface of the British people. I found there an indescribable kindness which they so often cover with reserve."

The first time Commander Byrd came in close contact with the British was in 1911 when he was a midshipman on the U.S.S. Iowa, then at Plymouth. "He was ill with typhoid and received the kindest and most careful treatment, which saved his life. If it had not been for this care his adventurous career would probably have ended before it began. He often recalls that the Earl of Mount Edgcombe kept the room filled with flowers."

His next close association with the British was during the war when he was in command of the air force on the Eastern Canadian Coast. He formed a friendship at that time with Flight Commander Cull of the British Navy which has lasted ever since; and Commander Cull is godfather to his daughter, Bolling Byrd. Commander Byrd's relationship with the Canadian and British flyers under his command during the war is one of the pleasantest chapters in his career. He has often said, and recompensed him in some slight degree for not being able to go abroad.

R-2 DISASTER  
When the R-2 was wrecked in England, a disaster which Byrd escaped because the crew list for that flight had been made up when he arrived, he helped in the rescue work, toiling side by side with English and other American officers in trying to save some of the many men who lost their lives in that appalling accident. And later he took part in the funeral services in Westminster Abbey as only a handful of the American detachment was left. British officers and men filled the gaps by the gun carriages. Commander Byrd wrote in his book "Skyward" of that day:

"The English did homage that day to the American flag that covered the biers. England won me then and there. I cannot describe what that crowd did to me. Not a sound was heard but the rumble of the cortege. Not one of the women had dry eyes. Not one of the men or boys had his head covered. The spirit of them got me and I realized then and there that my dream of international good fellowship was not so senseless or useless; that aviation in tragedy as well as in success held within it an impalpable something that could bring peoples to a better understanding."

Alien Labor Bar  
Given Approval  
SACRAMENTO, April 16. (AP)—Alien labor on State or local public construction jobs was moved a step nearer extinction with the passage today by the Assembly Committee on Highways of the Hurley bill.

Under the measure, complete citizenship will be a requisite for applicants. The bill met with strong support at the hearing from Union Labor bodies and representatives of districts recently stricken by frost, where a dearth of employment among qualified citizens is feared.

## J. W. Robinson Co.

## Elizabeth Arden

AN Elizabeth Arden treatment cleanses and revives the skin because it sends a swift, freshening stream of circulation to the cells. It restores to the skin its youthful elasticity and makes firm the contours because it strengthens the muscles of the face and throat. Wrinkles, squareness, flabbiness, a double chin, are the results of improper care. Elizabeth Arden's treatments are based on a scientific understanding of the skin's essential needs.

Sun Colors by  
Elizabeth Arden

ELIZABETH ARDEN brings a complete line of Sun Cosmetics to meet the demands of the sun-burn enthusiasts.

The Ardena Protecta Cream has been introduced in a bronze shade. This delicate cream is good for summer sports because it protects the skin against sun and wind and at the same time, is itself impervious to water.

Lille Lotion, a liquid powder soothing to rough skin, has its sun coloring, also.

To complete this group, there is a powder in a pleasant bronze tone.

## The Arden Salon

ELIZABETH ARDEN treatments are given exclusively in Los Angeles at J. W. Robinson Co. in the salon on the seventh floor. Elizabeth Arden preparations may be obtained both in the salon and in the toilet goods section on the first floor.

## Beauty

Personal loveliness is a social obligation . . . an obligation which prominent women recognize and respect. The foundation of beauty . . . personal loveliness is care; scientific and regular. An interval of faithful attention each day will produce a glowing response. Development, cultivation, and protection will accent outstanding good points and suppress weaker ones.

## Essentials---

REALIST or romanticist—neither may ignore the fundamentals of well-being. Proper cleansing, nourishment, and stimulation are necessary to health, and health is a foundation for radiant beauty.

## For hand loveliness

These preparations, from reliable Houses, are soothing and efficacious.

Pate Agnel from Agnel, Paris.	Pacquin's Cream.
Hyalomel from Feret Freres, Paris.	Dimit's Magic Touch, Witch Hazel Cream.
Lotion from Prince Matchabelli.	Va-Yu lotion.
Princess Lotion, a Twentieth Century preparation.	Adele Millar, Cucumber Cream.
	Beecham's Alabastrine.

## For the Coiffure

A WELL modeled, well designed coiffure is indispensable to a smart appearance. Lotions have been compounded by scientists to enhance the natural beauty of hair and to hold it in immaculate arrangement.

Guerlain's liquid brillantines.	Flozor du Fluide d'or gives golden lights to blond hair.
Evan William's Henna brillantines.	Bruner lotion gives red-golden lights to auburn hair.
Marcelle brillantines.	

## For the teeth

THESE are world-recognized dentifrices which people may often want, and yet, do not know where they may be obtained.

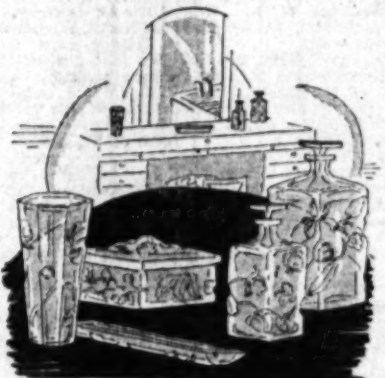

Jewsbury and Brown's Oriental tooth paste.  
Eau Dentifrice . . . du docteur Pierre.  
Vident Mouthwash.  
Sotol tablets.  
J. Floris' mouth wash, both rose and violet.

## For tired feet

MARMUN foot tonic is used to relieve sore or tired feet. It is deliciously soothing, and a good deodorant.

## Preventatives

IN choosing a preventative it is essential to select a reliable, accepted preparation—Babex Powder, Dew, Odonoro, Innocent, Heck, or Ever-dry.

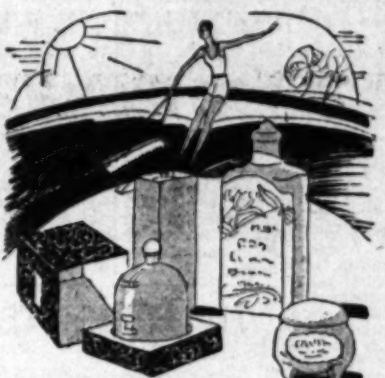

## Bath Sets

SETS for the bathroom are shaped into sharp modern angles. Heavy Czechoslovakian glass, rich with color, is encased with an opaque Oriental flower design.

Squat and sedate containers—long, svelt trays—a stalwart glass, diamond shaped bottles, make a conveniently varied group:

In colors: amber, green, blue, and red.

FIRST FLOOR

## Sun-tan

SUN-tan in many shades and variations has definitely established its influence and attraction. Sun-tan cosmetics have taken for many people, the place of long blistering hours in the sun.

DORALDINA (ALLURA) PREPARATIONS are very popular. This group has a great variety of complexions in paste as well as in powders. Lipstick, rouge, and compact are made to complete the sun-tan effect. In shades: sunburn, Ceylon, sun-glow, Arabian, and desert-tan.

HUILE DE CHALDEE, an oil by Patou, softens and tans the skin.

### GRAVEL TRUCK HIT BY TRAIN

Driver Escapes Death by Narrow Margin

Six Persons on Porch Elude Danger

Tons of Stone and Earth Thrown Into Yard

SAN DIEGO, April 16.—One man was hurt seriously, and six others persons sitting on the porch of a home near by narrowly escaped being crushed to death late this afternoon when a south-bound Santa Fe passenger train struck and demolished a ten-ton truck at California and Juniper streets.

Orville Osborne, 30 years of age, truck driver, was thrown out of the vehicle following the impact and received a fractured nose, lacerations of the scalp, three broken ribs and bruises and abrasions of the body.

The truck which was loaded with earth and gravel, was toppled over into the front yard of a home at 2775 California street. Six persons sitting on the porch, leaped for their lives.

Osborne, driving a truck belonging to the R. E. Hazard Construction Company, lives at 4716 Holly Boulevard.

Police removed him to the Mercy Hospital. Engineer R. T. Warner, 60, of 716 South Broadway street, Los Angeles, was at the throttle of the train. The names of the persons who were sitting on the porch of the home, were not obtained by police.

### Board Favors Road Program

SANTA ANA, April 16.—State and county highway projects costing approximately \$600,000 were carried forward today by action of the County Supervisors in approving plans for a joint State-and-county contract between Anaheim and Santa Ana, and two contracts of a local character.

The board advertised for bids to be opened May 7, next, on an \$80,000 street-improvement program at Dana Point, adjoining a project just finished there; also for the \$22,000 contract for paving Tustin street, between Santa Ana and Tustin.

Hearing of protests against the proposal to rebuild the State highway between Santa Ana and Anaheim at a probable total cost of \$600,000, was set for May 7, next, at the board's regular session.

The supervisors had approved plans submitted by County Highway Superintendent Nat H. Neff, covering the county's half of the project.

As in other joint projects, the county and city are to let their contracts independently. Plans call for concrete pavement over the five-mile strip, fifty-six feet in width, with a concrete base of the county's share of the cost run more than \$300,000. This cost, it is said, will be divided between the county and an assessment levied on the property abutting the road, the county to pay \$15,000 per mile, or a total of \$75,000, while the assessment districts bear the rest of the cost.

### No Inquest in Suicide Case

SANTA ANA, April 16.—Coroner Charles D. Brown today announced that he would hold no inquest in the case of Miss Clara Monroe, 26 years of age, of 1223 South Pacific street, Santa Ana, who committed suicide yesterday afternoon by asphyxiation.

The woman's body was found in the kitchen of her home by her husband, Charles Monroe, when he returned at 5:30 p.m. from his work in a hardware store at Orange. His health was assigned as the motive for her act.

The Monroes moved to Santa Ana from Indiana thirteen months ago. Mrs. Monroe leaves a small daughter, Marjorie, besides her husband.

### DOCTOR MAKES GOOD PROMISE TO PATIENT

GLENDALE, April 16.—When Mrs. J. B. Wallace, 141 South Cedar street, lay dangerously ill, recovering from a major operation, less than a year ago, shortly after passing her seventy-fourth birthday, Dr. T. C. Young, her physician, told her that, if she would make an effort to get back to her normal health he would take her flying on his seventy-fifth birthday.

This morning Dr. Young's phone rang, and Mrs. Wallace told him that she intended to hold him to his promise and that she was ready to go flying as the most important part of the celebration connected with her anniversary. Dr. Young immediately turned up his folding-wing monoplane, the Spirit of Ether, and took Mrs. Wallace on a flight around Glendale and the metropolitan area.

### REDLANDS ENTERTAINS OLD-TIME RESIDENT

REDLANDS, April 16.—Henry Fisher, for many years a leading resident of Redlands and still owner of considerable business property here, was guest of honor at a luncheon given today by his many friends. Mr. Fisher has been living in Italy for ten years, but is in California with his family to spend the winter. He spoke briefly of his pleasure at being back "home" and of the great improvements made in Redlands.

### PROBLEM FOR "DIPLOMATS"

Question of Stop Sign on Euclid Avenue Raises Points Calling for Best Judgment of Arbitrators

ONTARIO, April 16.—Ontario and Upland's respective "diplomatic" committees already have a technical problem to settle. The committees were appointed by the mayors of the two cities to settle out problems affecting the two communities.

Several requests have been made by Ontario motorists that a "stop" sign be placed on Tenth street at Euclid avenue. The dividing line between Ontario and Upland is right in the center of Tenth street. Motorists going east on Tenth street would be brought to a stop in Ontario, while motorists traveling west on the same street would be halted at Euclid avenue in Upland.

The committees of diplomacy are now trying to get together on the fifty-fifty stop problem.

### SEA SCOUTS AT VENTURA

Boys' Organization of Oxnard Makes Application for Troop in Nautical Department

OXNARD, April 16.—Ventura county Boy Scouts are to have a chance at sea scouting. The decision to grant the formation of such a department in this county was granted by the county council of the Boy Scout organization at a meeting held here last night.

Detailed organization of the department and the naming of a head have yet to be done, according to Elwood Greist, county Scout executive. It is likely, however, that Capt. G. R. Madden of Ventura, a former United States naval officer, will have charge of the first boat to be launched by the sea scouts.

Application for the charter was made by the St. Paul Episcopal Church of Ventura. Eventually, patrol boats or ships, probably will be organized in Ventura, Oxnard and Santa Paula. Appointment of the department head is to be made by H. F. Orr, president of the county council.

Madden has reported that more than forty boys have been in application for membership in the new organization. Only eight are needed to form a patrol.

The favorable action taken last night will be forwarded to the national Boy Scout headquarters for final confirmation. According to Capt. Madden, boats are not absolutely necessary, but it is planned to provide craft for the proposed Sea Scout patrol.

### Council Elects Kimlin Mayor of Glendale

GLENDALE, April 16.—Councilman Clarence M. Kimlin was today elected Mayor of Glendale, at an adjourned meeting of the City Council that followed an unproductive session last night and that left Glendale without an executive head to the city government until the council met this afternoon to organize.

Kimlin's election was made after a heated session in which the council voted to elect Kimlin to the position, and then to elect him to the position. The council also elected Kimlin to the position of Mayor of Glendale.

At last night's meeting the new members of the Council were sworn into office by Glen E. Chapman, City Clerk, who was inducted into office by Harry G. MacBain, the retiring Mayor. Davis, Taggart and Williams are the new members of the Council, and Mrs. Blanche H. Gartley, city treasurer, also took the oath of office, as did Mrs. Alice E. Adams, William H. Hoar and David J. Hibben, members of the Board of Education. The Council chamber was filled with flowers, the gifts of the admirers of the various successful candidates, and Councilman Davis, a former member of the city administration, in opposing any inquest in the case of Miss Clara Monroe, who committed suicide yesterday afternoon by asphyxiation.

### High Lights in History

1316 The Story of the World War 86—Mackensen and Falkenhayn Invade Rumania.

THE RUMANIAN ARMY WITH THE NEWLY-CREATED GERMAN 9TH ARMY, WAS RACING TO HEAD OFF THE RUMANIANS IN THE NORTH.

IN SEPTEMBER, 1916, WHILE RUMANIAN ARMIES WERE INVADING TRANSYLVANIA, GENERAL MACKENSEN, WITH AN ARMY OF GERMAN, BULGARIAN AND TURK, STRUCK AT RUMANIA FROM THE SOUTH. AT THE SAME TIME, GENERAL FALKENHAYN WITH THE NEWLY-CREATED GERMAN 9TH ARMY, WAS RACING TO HEAD OFF THE RUMANIANS IN THE NORTH.

SEPTEMBER 26, FALKENHAYN PULLED UPON THE RUMANIANS AT HERMANSTADT, IN TRANSYLVANIA, TO WHICH THEY HAD ADVANCED. IN A FIERCE TWO-DAY BATTLE THE RUMANIAN ARMIES WERE ROUTED WITH GREAT SLAUGHTER AND DRIVEN BACK TO THE MOUNTAINS. THE GERMANS CAPTURING 3,000 PRISONERS AND ALL THE RUMANIAN ARTILLERY.

### SUPER-RACE FIXED AS GOAL

Noted Meri Back Foundation for Further Study of Human Mating and Sterilization

PASADENA, April 16.—Backed by more than a score of outstanding leaders in financial, educational and religious fields, the Human Betterment Foundation, which has for its purpose the solution of major social problems, was incorporated this week under the leadership of Mrs. S. G. Gooney, local philanthropist, and Paul B. Popene, author and eugenicist. Headquarters are at 28 North Marengo avenue.

This foundation is created to assure completion of studies of both legally mandatory and voluntary human sterilization which were undertaken by Gooney three years ago, and the inauguration of further research looking toward the guidance of the making of young people.

Members of the board of trustees of the foundation are: Mrs. S. G. Gooney, Henry M. Robinson, Los Angeles banker; Dr. George Dock of Pasadena, David S. Jordan, chancellor of Stanford University; C. M. Goethe, Sacramento philanthropist; Justin Miller, dean of the college of law, University of California; Samuel J. Holmes, associate professor of psychology, Stanford University; Charles H. Prisk, publisher, Pasadena Star-News; Rev. Robert Freeman, pastor Pasadena Presbyterian Church; Rev. Merle N. Smith, pastor, First Methodist Church, Pasadena; A. B. Ruddock, Pasadena philanthropist; William B. Munro, professor of government at Harvard University and California Institute of Technology; Dr. John Vruvuk of Los Angeles; A. D. Shamel, physician, 6233 persons, women and men, under the California law, for sterilization; Oscar Ford, former Mayor of Riverside, and Capt. Paul McBride Perigord, professor of French civility, University of California at Los Angeles.

According to the founder, the new organization has broad purposes under the California law, but its aim is to foster and perform preventive, instead of remedial, work. The foundation is not intended to perpetuate any individual's name.

The Gooney and Popene studies of the effects and administration of the law for sterilization of mentally diseased and defective persons reveal that since 1909, when the law was adopted, as an experiment, 623 persons, women and men, have been sterilized successfully in the public institutions. It has been estimated that the law has thus eliminated the law from more than 6000 children who would have been ill born that they would have become charges of the State.

### COUNCILMEN SET DATE FOR RECALL

Sierra Madre to Vote on May 27 on Question of Dismissing Officials

SIERRA MADRE, April 16.—At an adjourned meeting this afternoon, the City Council set May 27 as the date for the recall election affecting Councilmen Joseph Belohavek and Henry Isaacs. The resolution ordering the recall was introduced by Isaacs and seconded by Belohavek. Petitions for the recall of the two Councilmen were filed with City Clerk Dietz on the 2nd inst.

The petitions were circulated at the instigation of the Central-Avenue Property Owners' Association, which is opposed to the eighty-foot improvement program for Central Avenue. Each petition was signed by approximately 200 names.

Immediately after the meeting, a joint statement, in which they said that the "issues involved in this recall action have been so completely misrepresented that we are gratified to have the opportunity of allowing the voters of Sierra Madre to settle the matter once and for all.

### Work Resumed on Mexican Dam

MEXICALI, April 16.—Construction work on Rodriguez dam in the Tia Juana River, near the town of Tia Juana, which was discontinued following the present revolutionary outbreak in Mexico, is to be resumed May 1, according to an announcement made at the Territorial Palace here today by Secretary of State Maria Martinez.

The Rodriguez project involves the creation of a 224-foot dam to provide domestic and irrigation water for the Tia Juana district. It was started in May, 1928, the American Construction Company of New York having been awarded the contract at \$1,500,000.

Immediately after the revolutionary trouble of March 3, last, Gov. Rodriguez instructed the contractors to close down temporarily. Territorial officials here stated frankly that the need for funds to conduct military operations against the rebels caused the stopping of construction.

Today's announcement is accepted here as evidence that the Governor considers the revolution ended and as major operations are concerned. Martinez also announced that a contract is to be let this month for erection of a \$100,000 boys' school in Tia Juana.

### Protest is Filed Against Burials

NORTH HOLLYWOOD, April 16.—A protest has been filed against the burials of the deceased in the North Hollywood cemetery, which is being conducted by the city of North Hollywood.

The protest is being filed by the North Hollywood Cemetery Association, which is a non-profit organization. The association is protesting against the burials of the deceased in the North Hollywood cemetery, which is being conducted by the city of North Hollywood.

### CLUB APPEALS TO RAILROAD COMMISSION

ONTARIO, April 16.—Determined to ride in Pacific Electric buses, members of Ontario Boosters' Club, are undaunted by action of the P.E. company in refusing to grant a petition from that club that their bus service be extended south on Euclid avenue to Ely street.

Today, the club president, L. H. Williams, forwarded to the State Railroad Commission at Sacramento a petition asking the commission to take the matter in its hands. There are no transportation facilities for the residents of Ontario south of Euclid avenue, and the club members feel that they have not their own automobiles.

### KERSEY AT OXNARD

OXNARD, April 16.—Vierling Kersey, new State Superintendent of Instruction, will be here tomorrow, Tuesday, to address school teachers of the county at the high school at 7:45.

### DETECTIVE HUNTS STATIC

Wise Limb of the Law Discovers That Tailless Amphibian is Responsible for Troubles of of Radio Fan

SANTA BARBARA, April 16.—Joe Calderon, 214 East Canon Perdido street, is really enthusiastic over his radio, static or no static, but when the ice box starts adding static to the evening's entertainment it is a little too much, and he called the police about it.

From said the good lieutenant, "Progs" asked the late Mr. Calderon. So they crawled underneath the house and found that two puddle-jumping frogs had made their home in the ice box drain.

It was quite audible and went on whether the radio was turned on or not. It was a deep bass static noise. Suddenly while the ice box door was opened another static note a little higher pitched joined the chorus.

### STOLEN PROPERTY FOUND

Officers Uncover Thousands of Dollars' Worth of Loot in Residence in Santa Susana Pass

GLENDALE, April 16.—Officers from Glendale, aided by Ventura county deputies, who searched the residence of Edwin E. Johnson on the north slope of Santa Susana Pass, have discovered thousands of dollars' worth of clothing and miscellaneous articles that are believed to have been stolen from homes in Glendale and other Southern California cities.

Johnson was captured here when he sought to escape from Detective Lieutenant Charles P. Blake and Sgt. S. J. Lipsett, Blake bringing him down with a bullet through the right side. The goods that were taken over by the Ventura county deputies included fur valued at \$2500, electrical devices estimated at \$450, rugs, tapestries, flags, suit cases, women's handbags and a variety of clothing for both men and women.

Two men and a woman who accompanied Blake and the Ventura officers in their search declared that some of the articles found in the cache belonged to them.

When Johnson was taken to the General Hospital after being shot by Blake he is said to have claimed that he sought to rob the home of Dorothy Traxel at 630 Cordova street, because he needed money to buy food for his family.

### DEADLOCK BROKEN AT COMPTON

Authorities Get Together in Advance of Pending Bond Election

COMPTON, April 16.—An agreement has been reached between the Compton Union High School board and that of Compton grammar-school body to take over the intermediate building and to convert the structure into a future high school. At a meeting of the board today the matter was adjudicated, breaking a prolonged deadlock. This commits the Compton Union High School district to the six-four-four plan and on May 17 the entire district will present a solid front when the question of voting a bond issue of \$675,000 for junior high schools comes up. Completion of all the grammar-school districts in the high school territory, had held out against junior high schools. The new structure, which was recently authorized here as an intermediate school, will be erected this summer, but will not be taken over in all the grammar-school districts.

If the bond issue carries, junior high schools costing \$150,000 will be built at Lynwood and a \$100,000 building will be built at Willowbrook. A building of the same cost and nature will also be built at Clearwater and Eastwinds, and a \$100,000 structure at Compton.

This means that the present \$1,500,000 plant of the Compton Union High School will, within a year, house only the two upper grades of the high school and the junior college. This will give the complete high school facilities that are possessed by few junior colleges in the State and will allow an attendance of over 1000 pupils to be housed in the school, which are over 600 enrolled in the school, the second year of the school.

### LEGION COMMANDER TO MAKE ADDRESS

HUNTINGTON PARK, April 16.—Preparations are being made here for the dedication of the new addition to the National Legion in Municipal Park Sunday afternoon, when Paul V. McNutt, Commander of the National American Legion, will be here for a short address. Commander McNutt will leave Los Angeles immediately following an address in that city in the early afternoon, and will be in attendance at the dedication as a major operations are concerned. Martinez also announced that a contract is to be let this month for erection of a \$100,000 boys' school in Tia Juana.

### BOY'S CONDITION IS REPORTED CRITICAL

PASADENA, April 16.—There is only "one chance in twenty" for the recovery of fifteen-year-old Walter Wolfm of Eagle Rock, who was shot accidentally by his thumb, Douglas Wolfe, while the youths were hunting rabbits last week near the Annandale Country Club, according to Pasadena Hospital officials.

The Mills boy is reported to have fainted today when told that his pal probably will die. The gunshot victim's mother and brother are said to be ill and his father is in San Francisco.

### And How It Pays!

AN ANSWER—

Ever since the Wright brothers made their historic flight at Kitty Hawk, the world has been waiting for a "family" airplane.

An already air-minded public was ready months ago for an airplane that was safe for individual use, comparatively easy to fly and as nearly fool-proof as a plane can be made.

Such an airplane is the Maximum Safety Cabin monoplane. Daily it is proving in the air a satisfactory solution to a long-standing problem.

**\$17,500,000**  
**Southern Cities Public Service Co.**  
(Central Public Service System)  
**6% Convertible Gold Debentures, Due 1949**  
Price 99 and Interest  
The Company will agree to pay interest without deduction for any Federal Income Taxes up to 2% and to reimburse the holders of these Debentures, in any year, upon application within 60 days after payment for any California personal property tax not exceeding 5 mills.  
The following information is taken from official sources:  
**Conversion Privilege:** Under arrangements made with Central Public Service Corporation, these Debentures will be convertible at the holders' option, subject to the Indenture provisions regarding stock dividends, recapitalization, etc., at any time after November 1, 1929, and prior to November 1, 1934, into Class A stock of Central Public Service Corporation at the rate of twenty-two shares of such Class A stock for each \$1,000 principal amount of Debentures, with adjustments for interest and dividends. In the event that the Debentures are called for redemption on or prior to November 1, 1934, the conversion privilege may be exercised only up to the tenth day before the date set for redemption.  
**Company:** Southern Cities Public Service Co., incorporated in April, 1929, is a direct subsidiary of Central Public Service Corporation and will furnish, through subsidiaries, gas service to over 127,000 customers in 42 communities, located in the southeastern section of the United States. The population of the territories which will be served is estimated to be in excess of 1,100,000 and the larger cities include Atlanta, Macon and Augusta, Ga., Roanoke, Va., Mobile and Montgomery, Ala., Charleston, S. C., Pensacola, Key West and West Palm Beach, Fla.  
**Capitalization:** The consolidated capitalization of the Southern Cities Public Service Co. and subsidiaries as of December 31, 1928, after giving effect to the present financing and the acquisition of properties, is as follows:

Table showing financial details of Southern Cities Public Service Co. and its subsidiaries. Includes columns for Southern Cities Public Service Co., Subsidiary Companies, and Bonds and Mortgages.

**Earnings:** The consolidated earnings for the twelve months ended December 31, 1928, derived from the properties to be owned by the subsidiaries of Southern Cities Public Service Co. upon the consummation of the present financing and annual charges, after giving effect to the present financing, were as follows:  
Gross Revenues and other income \$7,365,592  
Net Earnings before Interest, Provision for Replacements, Dividends, etc. 3,047,748  
Annual Interest Requirements on Subsidiary Companies' Bonds and Mortgages as above \$ 662,088  
Annual Interest Requirements on Funded Debt of Company (this issue) 1,050,000 1,712,088

Net earnings, as above, are approximately 1.8 times the combined annual interest requirements on Subsidiary Companies' Bonds and Mortgages and these Debentures, and after providing for both maintenance and replacements at the initial rates to be required in the Indenture, are over 1.6 times such interest requirements. After deducting annual interest requirements on subsidiary companies' bonds and mortgages, as above, net earnings were \$2,385,660, or over 2 1/4 times the annual interest charges on these Debentures.  
We recommend these debentures for investment and shall be pleased to send circulars describing the issue in detail  
**Harris Trust and Savings Bank**  
Organized as N. W. Harris & Co. 1852, Incorporated 1907.  
**Halsey, Stuart & Co.**  
Incorporated  
**West & Co.**  
**H. M. Byllesby & Company**  
**Bonbright & Company**  
Incorporated  
**Albert E. Peirce & Co.**  
The Debentures are offered when, as and if issued and received by us, and subject to approval of Counsel.

**JOSEPH KREUTZER CORPORATION**  
(Incorporated in the State of California)  
The Corporation has sold the entire maximum production of its present factory for the next year, necessitating the construction of a much larger factory in the immediate future.  
We recommend the immediate purchase of this stock as an outstanding investment.  
Application will be made to list this stock on the Los Angeles Curb Exchange in due time.  
Circular Upon Request Price \$5.00 Per Share

## Grain Futures Off Sharply in Heavy Selling

CHICAGO, April 16. (Exclusive)—President Hoover's message on farm relief specifically stating that the government should not interfere in business or in price fixing was largely responsible for a wave of liquidation which swept over the grain markets and resulted in one of the sharpest breaks in prices that has been witnessed for some time. Wheat closed 4 1/2 cts lower, with May 1 1/2 cts lower, July 1 1/2 cts lower, and September 1 1/2 cts lower. Corn closed 3 1/2 cts lower, May 1 1/2 cts lower, July 1 1/2 cts lower, and September 1 1/2 cts lower. Cattle closed 1 1/2 cts lower, May 1 1/2 cts lower, July 1 1/2 cts lower, and September 1 1/2 cts lower. Hogs closed 1 1/2 cts lower, May 1 1/2 cts lower, July 1 1/2 cts lower, and September 1 1/2 cts lower.

CHICAGO, April 16. (Exclusive)—The Standard Oil Company's Mascot No. 1 well near Taft yesterday sidetracking is the latest in a series of operations which have been carried out in the field. The well was sidetracked from about 2000 feet.

BODY OF LOST SHIP'S CAPTAIN STILL HUNTED

SAN FRANCISCO, April 16. (Exclusive)—Search for the body of Capt. Edward Buckley of the wrecked fishing launch Three Sisters was continued by Coast Guardsmen today in the sea off the rocks of Point Bonita, where the ship came to grief in a dense fog yesterday morning. Capt. Buckley and Ivor Mattson, the engineer, were drowned. Vasco Valero, sailor, was alive when rescued from the rocks, but died late last night at Ross General Hospital.

## THE WEATHER

(Official Report)

LOCAL OFFICE, U. S. WEATHER BUREAU, Los Angeles, April 16.—(Reported by R. R. Hargis, Meteorologist.) At 5 o'clock a.m. the barometer registered 30.02 at 5 p.m., 29.95. Thermometer for the corresponding hours showed 57 deg. and 63 deg. respectively. Humidity, 5 a.m., 74 per cent; 5 p.m., 72 per cent. Wind, 5 a.m., northeast, velocity 5 miles; 5 p.m., southeast, velocity 7 miles. Temperature, highest, 70 deg.; lowest, 57 deg. Rainfall, 0.00 inch. Insects: normal to date, 14.40 inches; last season, 14.75 inches. Barometer reduced to sea level.

WEATHER CONDITIONS.—April 16: Light to moderate rain fell during the day. The rain was heaviest in the morning and light rain fell at intervals during the day. The temperature was in the 50's and 60's. The wind was light and variable.

WEATHER FORECAST.—April 17: Light to moderate rain. The temperature will be in the 50's and 60's. The wind will be light and variable.

WEATHER FORECAST.—April 18: Light to moderate rain. The temperature will be in the 50's and 60's. The wind will be light and variable.

WEATHER FORECAST.—April 19: Light to moderate rain. The temperature will be in the 50's and 60's. The wind will be light and variable.

WEATHER FORECAST.—April 20: Light to moderate rain. The temperature will be in the 50's and 60's. The wind will be light and variable.

WEATHER FORECAST.—April 21: Light to moderate rain. The temperature will be in the 50's and 60's. The wind will be light and variable.

WEATHER FORECAST.—April 22: Light to moderate rain. The temperature will be in the 50's and 60's. The wind will be light and variable.

WEATHER FORECAST.—April 23: Light to moderate rain. The temperature will be in the 50's and 60's. The wind will be light and variable.

WEATHER FORECAST.—April 24: Light to moderate rain. The temperature will be in the 50's and 60's. The wind will be light and variable.

WEATHER FORECAST.—April 25: Light to moderate rain. The temperature will be in the 50's and 60's. The wind will be light and variable.

WEATHER FORECAST.—April 26: Light to moderate rain. The temperature will be in the 50's and 60's. The wind will be light and variable.

WEATHER FORECAST.—April 27: Light to moderate rain. The temperature will be in the 50's and 60's. The wind will be light and variable.

WEATHER FORECAST.—April 28: Light to moderate rain. The temperature will be in the 50's and 60's. The wind will be light and variable.

WEATHER FORECAST.—April 29: Light to moderate rain. The temperature will be in the 50's and 60's. The wind will be light and variable.

WEATHER FORECAST.—April 30: Light to moderate rain. The temperature will be in the 50's and 60's. The wind will be light and variable.

WEATHER FORECAST.—May 1: Light to moderate rain. The temperature will be in the 50's and 60's. The wind will be light and variable.

WEATHER FORECAST.—May 2: Light to moderate rain. The temperature will be in the 50's and 60's. The wind will be light and variable.

WEATHER FORECAST.—May 3: Light to moderate rain. The temperature will be in the 50's and 60's. The wind will be light and variable.

WEATHER FORECAST.—May 4: Light to moderate rain. The temperature will be in the 50's and 60's. The wind will be light and variable.

WEATHER FORECAST.—May 5: Light to moderate rain. The temperature will be in the 50's and 60's. The wind will be light and variable.

WEATHER FORECAST.—May 6: Light to moderate rain. The temperature will be in the 50's and 60's. The wind will be light and variable.

WEATHER FORECAST.—May 7: Light to moderate rain. The temperature will be in the 50's and 60's. The wind will be light and variable.

WEATHER FORECAST.—May 8: Light to moderate rain. The temperature will be in the 50's and 60's. The wind will be light and variable.

WEATHER FORECAST.—May 9: Light to moderate rain. The temperature will be in the 50's and 60's. The wind will be light and variable.

WEATHER FORECAST.—May 10: Light to moderate rain. The temperature will be in the 50's and 60's. The wind will be light and variable.

WEATHER FORECAST.—May 11: Light to moderate rain. The temperature will be in the 50's and 60's. The wind will be light and variable.

WEATHER FORECAST.—May 12: Light to moderate rain. The temperature will be in the 50's and 60's. The wind will be light and variable.

WEATHER FORECAST.—May 13: Light to moderate rain. The temperature will be in the 50's and 60's. The wind will be light and variable.

WEATHER FORECAST.—May 14: Light to moderate rain. The temperature will be in the 50's and 60's. The wind will be light and variable.

WEATHER FORECAST.—May 15: Light to moderate rain. The temperature will be in the 50's and 60's. The wind will be light and variable.

WEATHER FORECAST.—May 16: Light to moderate rain. The temperature will be in the 50's and 60's. The wind will be light and variable.

WEATHER FORECAST.—May 17: Light to moderate rain. The temperature will be in the 50's and 60's. The wind will be light and variable.

WEATHER FORECAST.—May 18: Light to moderate rain. The temperature will be in the 50's and 60's. The wind will be light and variable.

WEATHER FORECAST.—May 19: Light to moderate rain. The temperature will be in the 50's and 60's. The wind will be light and variable.

WEATHER FORECAST.—May 20: Light to moderate rain. The temperature will be in the 50's and 60's. The wind will be light and variable.

WEATHER FORECAST.—May 21: Light to moderate rain. The temperature will be in the 50's and 60's. The wind will be light and variable.

WEATHER FORECAST.—May 22: Light to moderate rain. The temperature will be in the 50's and 60's. The wind will be light and variable.

WEATHER FORECAST.—May 23: Light to moderate rain. The temperature will be in the 50's and 60's. The wind will be light and variable.

WEATHER FORECAST.—May 24: Light to moderate rain. The temperature will be in the 50's and 60's. The wind will be light and variable.

WEATHER FORECAST.—May 25: Light to moderate rain. The temperature will be in the 50's and 60's. The wind will be light and variable.

WEATHER FORECAST.—May 26: Light to moderate rain. The temperature will be in the 50's and 60's. The wind will be light and variable.

## JACOBSON RAID HELD IMPROPER

Judge Will So Instruct Jury  
in Grimes Case

Stand Based on Limitation  
of Resorting Ordinance

Arguments Expected to be  
Concluded Today

Specific instructions declaring the morals arrest of Councilman Jacobson in a Beagle-street residence on a "resorting" charge to be improper will be given to the jury in the case of the trial of Mrs. Calle Grimes and five police officers for asserted conspiracy to "frame" and arrest him, Superior Judge Wood, presiding in the case, announced from the bench yesterday.

The announcement, which fell with startling suddenness in the midst of defense argument, brought a wave of strong objections from counsel for the six defendants, but the court held firmly to the intentions and refused to instruct the jury to ignore the declaration.

**MAY CLOSE TODAY**

The arguments in the case may close today and the instructions be delivered to the jury, but a definite forecast of the end of the case is not made by court attaches because the attorneys without time limit for the trial of Mrs. Calle Grimes and five police officers for asserted conspiracy to "frame" and arrest him, Superior Judge Wood, presiding in the case, announced from the bench yesterday.

Interrupting Cooper, the court said there was some doubt as to the extent of the jurisdiction of ordinance and ruled that it does not apply to the Beagle-street residence, nor any other private home, because "resorting" cannot be made to such domicile. The ordinance, the court ruled, applies only to public places.

**HOUSE EVIDENCE LACKING**

Dup. Dist. Atty. Denison and Bush asserted a victory in the unexpected ruling of the court on the indirect jurisdiction of ordinance. The indictment of the woman and men charges false arrest, and the prosecution now contends that point was under the ruling of Judge Wood, and declare further that the charge against Jacobson should not have been amended or dismissed in the first instance.

"There is no evidence," Judge Wood said, "to show that the house in this case is one of the type included in the ordinance. I have asked the attorneys for contrary law on this subject and none has been offered. This will be adopted as a rule in this case and will be included in the instructions."

Attorney Schenck, counsel for former Detective Lieutenant Lucas, objected to the court's remarks and moved that the jury be instructed to disregard them. His motion was denied.

All day long the guns of argument and oratory boomed in the courtroom. The principal attack of all counsel was aimed at the testimony of Jacobson, who was at times pictured as a gallant Romeo, hastening to rescue Mrs. Grimes from assessments. And again denounced as a traitor.

**CRIT OF TRAITOR RAISED**

Attorney Cooper, hammered heavily on the fact that Jacobson's testimony denied practically all the testimony of all witnesses who testified on the night of August 1, 1927, when he was arrested.

Moreover, Cooper declared, Jacobson waited until the status of limitations expired on the misdemeanor charge before he "raised his voice from the witness stand."

Attorney Palmer, defending Frank Cox and Harry Raymond, was arguing on the adjournment of court until 10 a.m. today. He is to be followed by Attorney Schenck, who closes the defense case. Dup. Dist. Atty. Denison will close for the State.

Shortly after the opening of the morning session Attorney Dene completed his argument in defense of Mrs. Grimes. He was followed by Grant Cooper, 25-year-old associate counsel for Wallis, who flung an benedict tirade against Jacobson and compared the Councilman with Benedict Arnold and Judas Iscariot.

"Foremost among the modern traitors," the young lawyer shouted, "is Councilman Jacobson; a traitor to his wife; a traitor to the people of his district; and a traitor before the world." He closed his argument.

**EYES FOCUS ON 'PREVIEW'**

Screen World Awaits "Times" Annual With Its Complete History of Film Revolution

Not only are the eyes of the film world focused on the forthcoming publication on the 23rd inst. of the Los Angeles Times Annual Preview but the interested attention of picture fans and alert followers of the news all through the East and in foreign countries has been aroused. This became evident yesterday when a check-up was made of the advance orders for specially wrapped, ready-for-mailing copies of the Preview already received.

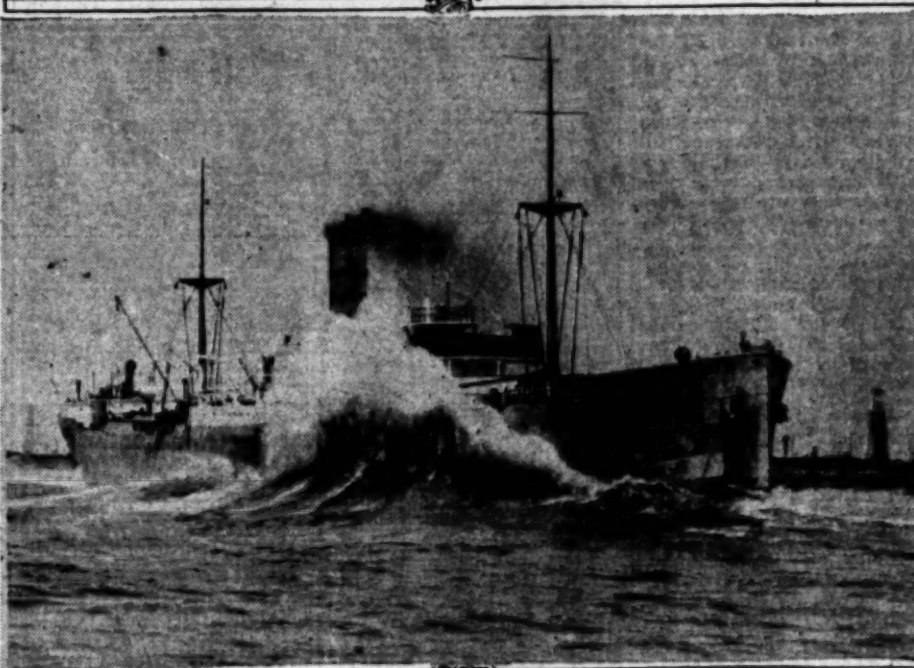

The announcement that the annual Preview, always authentic and comprehensive in its presentation of topics of timely interest, in the film world, this year will be devoted entirely to the tumultuous revolution that has taken place within the picture industry, started the rush of orders.

**HISTORY MADE**

Because of the advent of the talking picture, there was more history made last year in the film world than in any preceding five years. Film leaders, startled by the sudden advent of the "talkie," were loath to accept such a radical innovation.

## FILM STAR JOINS PROTEST

Mary Pickford Addresses Plea for Preservation of Santa Monica Beauty from Industry

Strong opposition to granting a permit for the establishment of a cement plant in the Santa Monica Mountains was voiced yesterday by Mary Pickford, screen star, in a written communication to the City Planning Commission. The protest covers not only the project as planned by Alphonso Bell and his organization but also any and all industrial activities.

"The letter of Miss Pickford, who is a property owner in the section, follows:

"I herewith wish to submit my protest against the establishment of a cement plant in Las Pulgas Canyon, Westgate addition.

**PROMISES RECITED**

"I am an owner of property west of Sepulveda Boulevard and north of Beverly Boulevard and also in the Castellammare subdivision and I feel that the establishment of this cement plant or of any other industrial enterprise will materially harm my holdings and those of all other property owners in this vicinity. We bought this property under a distinct understanding with Mr. Bell that it was to be kept exclusively for homes and invested our money into the strength of his promise that he was going to make it the finest residential district in California. The granting of this particular permit will let the bars down to other industrial projects and will ruin forever this beautiful section as a residential district.

"There are few spots in the world as beautiful as our Santa Monica Mountains and to turn them over for industrial purposes and to mar them with unsightly quarries seems desecration, and we would be guilty of what, to my mind, amounts almost to a crime if we should allow this beautiful region to be disfigured.

**IMPASSIONED PLEA**

"I cannot state too strongly my feelings in the matter. From every viewpoint I see only harm to be accomplished by the permitting of industrial permits in this section. It will spoil it forever as a tourist attraction and ruin it for miles around as a residential district. With the proper planning this entire region could be made world renowned for its beauty, and competing with the French Riviera in the show places of the world and one of California's greatest drawing cards for God-given opportunity and our responsibility to posterity to hand down to them safely the beauties which have been in our keeping would be criminal.

"I fear that we in California, unless we are very careful, are going to be in the position of 'killing the goose that laid the golden egg.' We are a State and a city in the making.

## ALMA RUBENS PLACED IN PRIVATE SANITARIUM

Alma Rubens, film actress, recently paroled from the State Narcotic Hospital at Spadra, where she was committed six weeks ago for treatment for the drug habit, now is under specialists' care in a private sanitarium in South Pasadena.

Miss Rubens was released from the State Institution last Friday by Dr. Thomas J. Joyce, superintendent, on the recommendation of the board of directors.

Several days ago, Dr. Joyce said, he felt that the patient would recover even faster if she were placed in charge of members of her family and in a private home. He then placed the case before his superiors.

Second Policeman Escapes  
by Trick of Fate

By a "Times" Staff Correspondent  
SANTA MONICA, April 16.—An airplane crash today at Clover Field, Santa Monica's municipal airport, killed a pilot and passenger.

The plane fell on the right-hand side of the runway, heading west over the airport, it started slipping downward on the right wing and the pilot was seen to attempt to make a landing. Heading west over the airport, it started slipping downward on the right wing and the pilot was seen to attempt to make a landing. Heading west over the airport, it started slipping downward on the right wing and the pilot was seen to attempt to make a landing.

Oscar Bayer, 31 years of age, a motorcycle officer from Central Police Station, Los Angeles, was killed. He was wearing a motorcycle helmet and a flight suit. The plane was a biplane, a Cessna 440, and was flying at an altitude of about 1,000 feet.

According to a police report, the plane encountered trouble shortly after taking off from the airport. It had circled the field several times, and then apparently was unable to make a landing. The plane was estimated to have dropped between 600 and 700 feet.

**WOMEN WITNESS CRASH**

Two women who were on the golf course were within 100 feet of the spot where the crash occurred. They were Miss E. M. Gregory, 2300 Graceland avenue, and Miss M. Johnston, 1919 Carmen avenue, both of Hollywood. They reported the plane's engine was running when it spiraled downward to the crash.

An investigation of the accident was launched immediately after the crash. The investigation is being conducted by the Los Angeles Police Department and the Federal Bureau of Investigation.

**BAYER GUN FIGHT HERO**

A watch worn by Bayer stopped at exactly 12:56 p.m., giving police officials a valuable and accurate timing of the accident. An inscription on the back of the same watch read:

"Presented to Oscar Bayer for capturing a hold-up man, August 3, 1928."

Bayer was one of the outstanding heroes of the Los Angeles Police Department. He was appointed December 7, 1921, and promoted to motorcycle officer July 23, 1924. His most famous exploit was his pursuit of four Chicago bandits who held up the Hellman Bank, Ninth and Santa Fe streets, on August 22, 1928.

The bandits were dashing away in a stolen car when Bayer was sent in pursuit. As his motorcycle drove into the bandits' line of fire, he was hit in the chest. At the moment, Bayer returned the fire. Bullets were cutting his uniform, but he held to the chase. At Seventh and Santa Fe streets, the fleeing bandits killed Traffic Policeman Wylie E. Smith, who tried to stop them.

**ONE BANDIT KILLED**

Between Sixth and Seventh streets on San Pedro street, Bayer and other policemen who joined the man hunt shot and killed Rudolph Franke and captured Anthony Casper. The other two bandits escaped. Ed Franke subsequently being captured. He and Casper are serving life terms in Folsom prison.

During the pursuit, Bayer's uniform was ripped by eight bullets, while one shot grazed his head. For his fearless pursuit he was commended by the City Council, and was awarded a medal by the Police Commission.

He figured in other bandit captures. On August 26, 1928, he caught two bandits on Broadway and Fourth streets, who had held up Arthur Lundstrom, a diamond broker. Bayer leaves his widow and four children residing in Los Angeles.

(Continued on Page 2, Column 5)

**JUNIOR COLLEGE DEAL ON**

Board of Education Negotiating for U.C.L.A. Vermont-Avenue Site for Early Occupancy

Negotiations looking toward the establishing of a junior college on the Vermont-avenue site of the University of California at Los Angeles are under way, and may be closed within the next few days, it was learned last night. Negotiations for the property are understood to be on a rental or lease basis.

Only that part of the site occupied by the buildings, together with sufficient grounds to meet the needs of a junior college, are included in the present negotiations.

This arrangement is perfected a junior college will be assured to Los Angeles, and the University of California at Los Angeles still will have considerable of the tract at its disposal.

The principal advantages to Los Angeles in the acquisition of the Vermont-avenue site is that all the needed facilities are ready and waiting for use. There will be no long delay, such as would be necessary in the case of a tract to be acquired and buildings constructed. The erection of buildings alone would

**ADVANTAGES OF SITE**

The buildings at the Vermont-avenue site will be vacated in September and the board hopes to take possession at an early date thereafter, provided an agreement can be reached with the Board of Regents.

## The Lancer

by Harry Carr

FRANCES MARION has sent me a copy of Lorna Moon's new novel, "Dark Star," out here on the border.

Its power and terrific vitality constitute a blessed relief from the stupid languor of this revolution. I can't understand how such vivid—almost ravenous—strength could have come from the pen of a girl whose every living hour is a fight for life.

If there were a couple of Mexican generals with the brave heart of this little Scotch girl, they would kick both contending armies before breakfast—and look around for something to do after lunch.

**BOOK CLUBS**

These book clubs have seriously complicated the business of writing for a living.

A solemn jury of the literati sits upon the new books. One, only a shade better than a dozen others, is chosen as the book of the month and at once leaps to a sale of 75,000 or 80,000.

I believed in book-of-the-month clubs until they sent me Elmer Wylie's "Orphan Angel."

Since when I have believed there must be considerable literary log rolling in book-of-the-month clubs.

**A REBEL HERO**

I have discovered one real soldier among all these brakemen, hack drivers and time clerks who are the generals of the rebel army. It is Yucapico, the Mayo Indian. That baby is a real cavalier and a soldier. If he had left the job to him I think the rebels would have long since captured Mexico. The Indian troops under his command are fighting fools.

The stupid timidity of the other rebel generals simply passes all human belief and understanding.

**Hired Killers**

I am unable to understand why the State Department should bother its head about Americans who have enlisted in the rebel army and then yell for help when captured by the other side.

Anyone who joins a foreign army and kills people "for fun" is about two shades worse than an ordinary murderer—who usually has, at least, the excuse of anger or passion.

It will be of great interest to see what status is given the American aviators with the rebel army who have dropped deadly bombs on the soil of their own country.

**BEAUTIFUL GUAYMAS**

Guaymas—to which the rebels threaten to fly for refuge—is one of the most interesting cities in Mexico. It has a harbor as lovely as a painting—a quaint old adobe town set in among a little sea-going Yosemite of surrounding hills. It has been a great resort for Los Angeles sportsmen on account of the sea fishing.

It has been a battleground since the days of the Spanish conquest, or every revolution contrives to pull off at least one fight there. In the center of the town is a monument to the memory of the battle in which the Mexicans defeated the invading Emperor Maximilian.

**NURSERY CLASS TO MEET**

Barbara Greenwood, supervisor of nursery school training at the University of California at Los Angeles, will open a new class in principles of the nursery school education under the direction of the extension division on the 23rd inst. at 7 p.m., at the campus of the university, 885 North Vermont avenue. The course is open to parents and teachers and others interested in the modern trend in child education.

**AUNT HET**

BY ROBERT GULLICK

"Amy says she makes her girls tell her everything so's she can advise 'em, but it's just because she wallows in that kind of gossip."

# Actress Reports Battle With Motorist on Wilshire Boulevard

## MANY INJURIES LAID TO ATTACK

Mary Duncan Declares She Fell from Car

Driver Gave Her Lift, She Explains to Police

Studio Issues Statement of Different Tenor

Mary Duncan, stage and screen actress, yesterday was taken to the Santa Monica Hospital suffering from injuries which, according to a police report, were sustained during a struggle with an unidentified motorist, who attacked her in his sedan. Miss Duncan told the police she had accepted a ride from the stranger when the car in which she had been riding was stalled. She told the officer that she fought desperately and then fell through the door, injuring herself.

### LIST OF INJURIES

According to hospital officials, Miss Duncan suffered an abrasion on the back of her head, lacerations on her hands and bruises over the body. She is not considered to be in a serious condition, however, and is expected to be fully recovered in four or five days.

Policeman Steedman's report to Lieut. Randall of the Santa Monica station declares that Miss Duncan started from her home at Bel-Air yesterday morning in a small car driven by her gardener. They ran out of gas and Miss Duncan alighted to board a bus. A motorist offered her a lift, which she accepted. Near the intersection of Wilshire Boulevard and Comstock avenue Miss Duncan detected the odor of chloroform in the sedan, she told police, and began to feel faint. Summoning her strength, she attempted to open a window, but the motorist seized her and tried to prevent her. Fighting the man, Miss Duncan flung open the car door and fell, striking the pavement.

She was taken to the Beverly-Wilshire Hotel, where her physician, Dr. Blodgett of Beverly Hills, was summoned. He took her to the Santa Monica Hospital.

### STUDIO STATEMENT

A statement issued last night by the Fox studios publicity bureau announced that Miss Duncan fell out of the closed car accidentally, and eliminates mention of any struggle. After giving substantially the same early incidents prior to her accepting a lift, the statement adds: "A gentleman about 50 years of age, driving a small closed car, drew up and asked if he might give her a lift. She got into the car, which had all the windows closed except one on the driver's side. There were some things in the back of the car, perhaps paint, which gave off a sickening odor. Miss Duncan felt herself fainting, and her first impulse was to get air. In attempting to open the window, she touched the door latch instead. The door flew open and Miss Duncan lost her balance and started falling from the car. The driver grabbed for her,

## ACTRESS RELATES DAYLIGHT ATTACK

Mary Duncan

grasped the arm of her sweater, which tore away, and she fell to the street. A crowd gathered. Miss Duncan was too shaken to get the name of the man with whom she was riding."

### WHAT POLICE SAY

Detective Lieutenants Packard and Anderson of the Sawtelle division, however, interviewed Miss Duncan and reported that she told them the same story she told Policeman Steedman. She described the motorist as thin and pale, with eyes drawn down at the corners. Eight hours of investigating failed to locate anyone who had seen the actress being assisted to her feet after falling. At the hotel the Sawtelle detectives were told that Miss Duncan arrived there alone.

## Stride in Voice and Color-Film Blending Made

The Paramount studios announced yesterday that for the first time the human voice and natural color have been combined successfully on a single strip of motion-picture film. Heretofore when used with color film sound has been projected either by use of separate film or by the disc method, since early tests showed that the gelatin on colored celluloid caused discord in the tiny adjoining sound track.

The new combined unit of sound and color which is being used for the first time in photographing Paramount's production of "Les Misérables" is the result of months of scientific study and experimentation conducted by Dr. Leonard T. Troland of Boston, and J. Arthur Ball, under the supervision of Dr. Herbert Kalmus, president of the Technicolor Corporation.

## CRASH KILLS RESCUER IN GIRL ATTACK

W. P. Cobb, Who Saved Miss Helen Clauser from Assailant, Auto Victim

William P. Cobb, automobile salesman, who recently figured as the rescuer of a girl attacked on the street by another man, was dashed to death last night when his car crashed into a palm tree at Elden and Tenth streets. According to police reports, Cobb was taking a turn at high speed when his automobile leaped a curb and wrecked itself against a tree. The motorist's neck was broken, causing instant death.

Cobb was 28 years of age and lived at 8464 1/2 Sunset Boulevard. He had played basketball on the Syracuse varsity eleven. He was a salesman of the Dalton Motors Company, Figueroa and Pico streets. On the night of March 26 he was making a sale in that company's showroom when he heard a scream. Dashing out he saw Miss Helen Clauser of 2918 Lasalle street struggling in the grasp of a man. She told later, dragged her into a building in the course of construction on Figueroa south of Pico street, Cobb knelt and begged the accused man, Herman Rutherford, was arrested.

## Realty Man to Be Buried Today

Funeral services for James A. Rydell, Beverly Hills real estate man, a resident of Southern California for thirty-five years, will be conducted at 2 p.m. today at the Swedish Lutheran Church, Fourteenth and Burlington streets. Interment will be at Forest Lawn Mausoleum.

Mr. Rydell, who was 58 years of age, came to this section in 1894 from Sweden. His home was at 126 North Maple Drive. He was a member of the Swedish Club and the Beverly Hills Chamber of Commerce. He leaves his widow, two sons, Raymond A. and Homer J., and one daughter, Miss Norma.

**LIBRARY OFFERS PROGRAM**  
"Song Pictures of Spain" in a novel program by Luisa Espinel is offered by the Los Angeles Public Library today at 8 p.m. Mrs. Elizabeth Sprague Coolidge will present Miss Espinel, who gave a program at the Pittsfield (Mass.) Coolidge festival with other distinguished artists.

### DESERPTION CHARGED

Following testimony to the effect that her husband deserted her on September 3, 1921, after a married life of twenty-seven years, Mrs. Jennie A. Lohman yesterday was granted a divorce from Theodore G. Lohman by Superior Judge Fector. A property settlement was approved by the court.

## HORSE AND AUTO VIE IN SUIT ROTARIANS MAY DIVIDE DISTRICT

Motorist Asks \$53,000 for Wreck

Girl Sues Rancher

Miss Lois Preston pointing to blackboard picturing issues and amounts at stake.

**ANOTHER** skirmish in the long battle the genus Equus is fighting against the horseless carriage will be aired next week when the \$53,000 suit of Miss Lois Preston vs. H. Clay Needham, prominent San Fernando Valley rancher, is tried in Superior Court. The case was set for trial yesterday.

Miss Preston's automobile was wrecked when she struck a horse belonging to Needham on the valley highway near Saugus. Needham has countered with a suit for \$50, which, she says is the value of the horse struck by Miss Preston.

"There were two horses in the road," said Miss Preston. "It was dark, and I dodged the white one, but hit the bay. I guess there was something in the old rag about white horses being lucky."

Miss Preston's suit was filed by Attorney Grant Cooper.

## SCREEN AWAITS PREVIEW ISSUE

(Continued from First Page)

the story now. Nearly 100 leaders of the film world, from Douglas Fairbanks to Will H. Hays, from Will Rogers to Robert Benchley, from Jack Warner to Winfield Sheehan, set forth from their own viewpoint just what actually happened.

In order to carry out the spirit of realism, of truthful presentation of facts which characterizes the reading matter, The Times sent Charles H. Owens, staff artist, to the studios to sketch actual interiors and the silent and sound stages. Although the cameras have proved invaluable in recording scenes and the persons of famous film folk, his views always are limited to the range of his lens. Drawings by Mr. Owens go behind the camera lines, reach right into the heart of the studio and give a more realistic and impressionistic picture of film folk in casual attitude, in earnest work on the picture sets.

The sketches give a picture of the huge industrial and mechanical forces at work these days.

Results of the recent Times and Fox-West Coast poll on the silent versus the talking picture will be contained within the pages of the Preview. Letters from fans widely at variance in viewpoint and wording will be published alongside opinions of the best-known actors and actresses in the business.

## Angeleno Will Install Organ

A pipe organ designed by a resident of Los Angeles and built under his direction at Santa Monica will adorn the magnificent home of Tito Schipa, world-famous tenor, at Frangene, a suburb of Rome, Italy.

Clarence E. Haldeman, the designer of the instrument, which was the last one built under his direction while he was president of the Art Craft Organ Company, is on his way to Frangene to supervise the installation of the organ in Schipa's marble palace.

Before returning to America Mr. Haldeman will visit several of the famous organs and organ factories of Europe.

## Pretty Peddlers Worry Wilshire

Complaint against the practice of employing young and pretty girls to sell box lunches along the boulevards in the Wilshire district, made to the Police Commission yesterday by the Wilshire District Chamber of Commerce, was referred to the City Attorney for an opinion as to whether the practice is a violation of zoning laws.

Harriet P. Scooby, secretary, states that "traffic on the boulevards is obstructed by drivers of vehicles who stop to get the lunches and 'sit' the girls." Since property owners cannot use their premises for business purposes she questions the legality of box lunch sales.

## ALMA RUBENS IN SANITARIUM

(Continued from First Page)

In Sacramento, who agreed to the parole. Reports that Miss Rubens had escaped from the custody of her nurses and created a disturbance were denied by Dr. Joyce.

Miss Rubens suffered from a bad tooth, which necessitated an anesthetic for the extraction, the hospital head said, but otherwise her condition was exceedingly good. Reports from the sanitarium last night were that the actress is in good spirits, pleased with the new arrangements, and in good health.

## ACTRESS' RING FOUND IN ADICT'S POSSESSION

Police investigators last night were attempting to solve the mystery surrounding the discovery of a diamond-studded wedding ring, asserted to be the property of Miss Alma Rubens, film actress, in the possession of Henry Tape, a Chinese inmate of the State Narcotic Hospital at Spadra.

The ring was found last night when Deputy Sheriff's Gail and Ross of the San Dimas substation searched Tape, after the Chinaman and Julius Buckingham, a negro, surrendered to the police officers at La Verne, and said they were two escaped drug addicts from the State Institution.

The police investigators notified Dr. Thomas F. Joyce, superintendent of the drug hospital, and he identified Tape and Buckingham as two prisoners. He said he had no knowledge of how the ring got into the possession of the two escaped addicts.

Tape and Buckingham were booked in the County Jail as escaped prisoners, and the ring is being held by the police officers awaiting the result of their investigation and identification and claiming of the property by Miss Rubens.

## JACOBSON RAID HELD IMPROPER

(Continued from First Page)

with an impassioned appeal for the acquittal of Wallis.

John Cooper, chief counsel for Wallis and an uncle of the young actress, began with a humorous introduction of the attorneys and defendants at the counsel table, and then plunged into a discussion of the sketches prepared by the district attorney in handling conspiracy cases.

Cooper declared that all possible suspects were included in the conspiracy indictment with the hope by the district attorney that some of the accused would confess and go on the witness stand against their asserted co-conspirators. Then he discussed the cases of Albert Marco and Charles Crawford, who were dismissed by Judge Wood Monday.

Throughout Cooper's argument, Dep. Dist. Atty. Dennison sat at the counsel table making notes on Cooper's speech and discussing with Dep. Dist. Atty. Bush the trend of the argument which he will be permitted to answer in closing the case for the State.

## TWO AIRMEN DIE IN PLANE CRASH

(Continued from First Page)

He owned the plane and was a licensed pilot, according to R. B. Quick, inspector for the Department of Commerce, and Lieut. Duff Wilson, manager of the airport, who investigated the tragedy. Bay's plane, however, was unlicensed and had been permitted to leave the field after landing on a hop from the Lincoln Airways field under the rule that an unlicensed ship may make one take-off.

The other dead flyer, Johnson, resided at 362 South Boyle avenue, Los Angeles. He was unlicensed. Both bodies were taken to the Kirkelle undertaking establishment in Ocean Park, where an inquest will be conducted.

R. F. Pursagar of 3767 Edenhurst avenue, a motorcycle officer from Los Angeles, was a passenger in the plane when it landed. He got out at Clover Field and gave his place to Johnson, thereby escaping the tragedy. Spectators said Pursagar was visibly shaken when he realized what might have happened had he not left the plane before it took off again for its fatal trip.

## Proposal Will Be Debated at Session This Week

Conference Opens Tomorrow With Many Expected

Various Arguments Offered on Plan for Split

A proposal for division of the second district, Rotary International, which now includes California, Nevada and the Territory of Hawaii, will be placed before delegates to the annual second district conference in Los Angeles Friday. The conference will open tomorrow for a three-day session. Delegates will register at the Biltmore.

H. J. Brunner of San Francisco is the chairman of a district division committee which will report to the conference at the Friday morning session in the Philharmonic Auditorium. Other members of the committee are Dewey R. Powell of Stockton, Leslie S. Everts of San Diego, Charles Bils of Sacramento, Jack Williams of Long Beach, Fred McClung of Huntington Park, Thomas B. Bridges of Oakland, Harry Mason of Los Angeles and Herbert E. Harris of Wilmette. All the committee members are past district governors, with the exception of Mr. Harris. He is the present governor of the second district.

## VARIED ARGUMENTS

Division of the second district, one of the largest of Rotary International, has been advocated in many quarters of the organization for several years. Proponents of the plan, which international headquarters of Rotary is said to look with favor, urge that the present district is too large to function effectively. One of the points of opposition to the proposed division is that the second district, which now includes 130 clubs, holds the distinction of being the second established in the organization of Rotary International and should be kept intact for this reason. One of the duties of a district governor is to make frequent visits to the various clubs within his district. The great extent of the second district, it has been pointed out by advocates of division, works a hardship on the district governor.

Should a division plan be accepted by the delegates the election of more than one new district governor would be necessary at the present conference.

### SUTTON WILL ATTEND

Israel Bird Sutton of Yampico, Ark., president of Rotary International, and Ernesto J. Aguilar of Mexico City, district governor of the third Rotary district, are to arrive today. Other leaders who will attend include Crawford McCullough of Fort William, Ont., and Harry H. Rogers of Tulsa, Okla., both past international presidents, and John W. Caldwell, secretary of the Rotary Club.

District Governor Harris will preside at the conference sessions at the Philharmonic Auditorium tomorrow morning and Friday morning and afternoon. Group meetings for the discussion of Rotary affairs will be held tomorrow afternoon in connection with a number of group luncheons.

William R. Kilgore, president of the Los Angeles Rotary Club, will be toastmaster at a breakfast Friday at the Biltmore in honor of the president and past presidents of the various clubs of the second district. He will be assisted by Gerald Thomas of the Fresno Rotary Club.

### ALLEN TO SPEAK

Crombie Allen, editor of the Daily Report, Ontario, past president of the California Newspaper Publishers' Association, has been asked to take the place of James McKillop of Seima, on the conference program tomorrow afternoon. Mr. McKillop being unable to attend. Allen subject will be "South America B.I. (Before Hoover)." Rotary International Peace.

Allen visited recently Switzerland in 1926 to invite the Rotary Congress of the World to come to California in 1932, the year of the Olympic Games here. A year ago he went to South America on a similar mission.

## DEAL PENDING FOR JUNIOR COLLEGE

(Continued from First Page)

require from eighteen months to two years. Another advantage worthy of consideration is that the money expended in acquiring the site for a junior college will go to the building-up of the University of California at Los Angeles in the erection of buildings at the Westwood location.

### NEED URGENT

Because the city of Los Angeles has no junior college, hundreds of boys and girls whose high school credits are not quite high enough to gain them entrance to either of the universities, are now enrolled at Pasadena, Glendale, Compton, Fullerton and Long Beach junior colleges. In many instances these young people are traveling thirty to forty miles a day, or have found lodging near the college, in order to supplement their high school training.

While the junior college offers academic training which will enable the student, after one or two years' study, to enter a university as a fully credited junior, the curriculum also offers advanced training in accounting, business law, commercial practice and other vocational subjects.

With the establishment of a junior college in Los Angeles hundreds of students, for whom there is no provision, may be able to continue their education for another two years.

**KANSAS GROUP WILL PICNIC**  
Honoring Mrs. Maude Rogers, mother of Buddy Rogers, screen actor, former residents of Olathe, Kan., will have a picnic and regatta beginning at 11 a.m. Sunday at Griffith Park. The committee of arrangements announces the meeting place will be at a spot near the zoo.

## FINANCE METHODS LEAD TO INQUIRY

Police Board to Investigate "Taxi" System

of "Nickel Hoppers" Held to be Unmoral

An investigation of asserted "taxi" and "nickel hoppers" in the dance halls in Los Angeles authorized by the Police Commission yesterday, on motion of Police Commissioner Pierce, to whom complaints had been made that the practice of "taxiing" had become a permanent public nuisance, Commission Force and Collum were assigned a special committee to investigate.

According to Pierce, the assertion that girls in the dance halls are used as "come-ons" to induce patrons to dance, and in return they receive a percentage of the profit from each patron, is an immoral practice.

**Today's Bible Text**  
 Ver, behold, the darkness shall cover the earth, and gross darkness the people; but the Lord shall arise upon thee, and his glory shall be seen upon thee, and the Gentiles shall come to thy light, and kings to the brightness of thy rising.  
 Isa. LXII, 1-5.

**WORTH TRYING**  
 One of the bulletins from the census office says that every time the clock ticks twenty-three seconds some one is born in this country. Maybe we could correct this embarrassing condition by stopping the clock.

**THE BALD EAGLE**  
 The Italian Academy, which is supposed to include the thirty immortals of the bootleg kingdom in its membership does not admit the name of Gabriel d'Annunzio. It can't be very representative if the doors are closed against the bald-headed bard.

**THE TIE THAT BINDS**  
 A Chicago woman didn't like the way her husband was behaving and, therefore, choked him to death with his necktie. This proving that ties may be useful as well as ornamental. But since then Chicago husbands are suspicious when the wife offers a necktie as a birthday present.

**WATERING PLACES**  
 A rich Australian left a fortune of \$400,000 to be used in the construction of horse troughs all over the world. Any town that wants a watering trough for its equines may be able to get it by getting in touch with the executor. But what town does? Maybe we could use a trough in front of our City Hall, but not to moisten our ponies. The world is using filling stations for Ford's, not for Dobbins.

**TAXES IN RUSSIA**  
 The Soviet government in Russia is now applying a 50 per cent income tax to peasants who have been able to acquire a little property or hire a man to help them. This is a heavier levy than the monarchy ever applied and is likely to result in mutiny on the part of the peasantry. As a class they are greatly in the majority and once organized and armed the Soviet leaders in the cities would not last long. There would be another clean-up, more forceful than the last.

**MAKING JOURNALISTS**  
 There's a college of journalism in China that operates on modern and practical lines. The students are taken over the country. They see and interview prominent men. They inspect the industries and view the social life of different classes and communities. And they write about it all while the impressions are fresh. This should be the finest possible training for the newspaper workers of the future. When China wakes up modern it will in some respects be the full length. This is better than we are doing here.

**SENSIBLE FASHIONS**  
 The fashion designers abroad are giving women the freedom of the knees. There was talk about their dropping skirts a notch or two, but nothing seems to have come of it. The ladies may expose their knees to the full, if they wish. Also it is stipulated that the plump and portly dames may wear bright colors on occasion. They are not restricted to dark shades and blacks. The fashion folk are getting quite sensible, but it is largely because they have to be. Women no longer behave like sheep. They dress for themselves and according to their own ideas.

**ROOM FOR LADIES**  
 There were sixty-three notable women on England's last honor list, but not one of them was given a peerage. They got almost everything else, but they are not satisfied. They are fairly entrenched in the House of Commons, but they have not been able to make the Lords under their own power, and right now they are clamoring for a few seats in the upper branch of Parliament. There are a lot of peers entitled to seats in the House of Lords who hardly ever present themselves. Why not give women a chance to come in and join the show? There can be no equality in England as long as none but males hold forth in the House of Lords.

**HOOVER'S MESSAGE**  
 A five-fold program is recommended to the extraordinary session of Congress in the first Presidential message of Herbert Hoover. The creation of a Federal Farm Board, with powers in relation to agriculture comparable to those of the Federal Reserve Board in relation to banking, or the Interstate Commerce Commission in relation to transportation; limited tariff revision, for agricultural relief and that of other depressed industries; reappropriation; provision for the 1930 census, and suspension of the national origins immigration plan—these constitute the work which the President asks Congress to perform. His recommendations will be seconded heartily by a nation which has the greatest confidence in Hoover both as man and as President, and its representatives will be held strictly to account for any failure to co-operate with their chosen leader.  
 Broad policies rather than specific recommendations are laid down in the message; that is to say, there is no attempt to direct Congress in detail. The President says frankly that the Federal Farm Board will be an experiment, whose success no man can venture to predict, but he urges its creation as the expedient most likely to aid agriculture in working out its own salvation.  
 In emphasizing that this great industry must, to a large extent, solve its own many problems, and that for this and other reasons no hampering restrictions may be placed upon individual initiative, the President makes statements the wisdom of which can hardly be denied. The difficulties of agriculture, he says, cannot be cured in a day; this caution was needed, since there are panaceas-mongers who, for political advantage, are insisting the contrary. They will be heard in debate in the next few days.  
 A Federal Farm Board plan has already been drawn up by the House Agriculture Committee, and this plan, in the main, is understood to have the President's approval. The bill, as drawn, grants broad powers to this agency, and endows it with a revolving fund of \$500,000,000 with which it may assist the organization of co-operative marketing associations, of stabilizing corporations and the like.  
 Since the board is admittedly to be experimental, it is obvious that the broad powers are necessary, and the wisdom of their being granted may be conceded. There is understanding—that the board will always be made up of men of good judgment and business ability. The board's powers for good are limited by inexorable economic laws; its powers for evil are almost limitless; and the personality of the board is, therefore, of the very highest importance.  
 There are in the field already, as the President points out, marketing organizations with a membership of nearly 2,000,000 farmers with an annual production of \$2,500,000,000. More such organizations are to be assisted in coming into being, the membership of the present ones is to be enlarged. Control of the Federal Farm Board over co-operatives is a controlling factor. Through the granting of loans—a power which must be exercised wisely and unselfishly, by men of the broadest possible viewpoint, if it is not to be mischievous.  
 The function of the stabilizing corporations, of which the co-operatives are to be stockholders, is to sustain the market by judicious purchase and sale. This also is an operation requiring the greatest nicety of judgment if more harm than good is not to result.  
 In the portion of his message devoted to the tariff, the President suggests changes in rates for agricultural products, as part of the farm relief program, and also for the exceptional manufacturing industries which have not been prosperous. These he does not specify; they presumably are known to the members of the House Ways and Means Committee, which for some weeks has been holding hearings on the subject.  
 He also asks for reorganization of the Tariff Commission, with better salaries for its members, and a more practicable formula upon which its decisions can be based. The foes of the commission are rebuked with a direct declaration that "seven years of experience have proved the principle of a flexible tariff to be practical, and in the long view a most important principle to maintain." It is evident that those who would do away with this body will get no assistance from the executive.  
 The concluding paragraph lumps together provision for the census, Congressional reapportionment, and suspension of the national origins clause, with merit of all these matters have been more thoroughly discussed and all they are required to be said is put by President Hoover into words, "I recommend their consummation as being in the public interest."

**A CHURCH FOR ALL**  
 A building is to be erected at the new site of the University of California at Los Angeles in which virtually all shades of religious belief common in the Western Hemisphere may find a meeting place. The organization which sponsors the building, known as the University Religious Conference, contains representatives of Catholics, Protestants and Jews. It is not an experiment, as it has been functioning on the old campus, and the decision to erect headquarters of its own at the new campus comes as the result of demonstration that harmonious among many customarily competing sects is possible.  
 The fact that under our nonsectarian form of government, religious instruction cannot be made part of any official course of study does not mean that such instruction is deemed by the State neither necessary nor desirable; merely that the State expects it to be supplied independently. "Religion, morality and knowledge" continue to be the three necessary bases of government as they were when the ordinance was adopted for the government of the Northwest Territory, by a long-ago Congress. Such an institution is, therefore, needed at the State university, and the University Religious Conference supplies the need.  
 Separate organizations for each denomination or creed would be possible,

**TRUSTFUL TO THE END**  
 R. E. E. Pomonio, sternly rebukes those who assert that lack of faith in the law is general. The law says pedestrians have the right of way, he points out, and the weekly casualty lists show how many people still have deep, abiding faith in it.

**Red and Yellow Catch a Fellow**  
 Last year P. E. notes get a rise. West "Largely" did grow the red and yellow. And now the red and yellow. Can white be a fellow?  
 ADAM SINICK.

**Child "Liars"**  
 Frequently we write something very wise and true about the lying children. We write about the things that are true, because they are the ideas which come to us too late, just after we have taken the wrong course in regard to our own offspring.  
 When we were a boy, we deserved all the likings we got and quite a few we escaped. But we were impressed, the other day, with the fact that many a child is harshly dealt with when the chief trouble with him is lack of parent-understanding.  
 In the case in question, a 5-year-old lad in one of our suburbs came in from the yard with his face covered with mud.  
 "Have you been eating mud?" sternly demanded his mother.  
 "No, sir!"  
 "Now, Edgar," said the mother, her voice full of warning and suspicion, "don't you dare—"  
 But just then Aunt Effie Casey, who hasn't any children but is a kindergarten teacher and has studied child psychology, interrupted. She smiled ingratiatingly and understandingly at the little boy, and asked:  
 "What have you been eating, Edgar?"  
 "I was asked in such an interested, unassuming, chummy way that the boy grew confidential at

and in an earlier day would have been instituted as a matter of course. But they would have tended to emphasize division; it is more hopeful and wholesome to have an institution which emphasizes instead, essential unity, but leaves room for differences of opinion.  
 An institution in which seal and toleration may go hand in hand, working toward the same goal, approaches the ideal.

**AIR MAIL ANNIVERSARY**  
 Special days to commemorate the various achievements that have made California famous are many. Many of these anniversaries begin to crowd the calendar. Yet April 17 we shall always remember as one of the big milestones marking the progress of this part of the State. For on that date we inaugurated in 1925 the first air mail service out of Los Angeles. How much that start meant for the future of our city we shall realize with every advance in the transportation era of the commercial airplane.

If the success that has attended the operation of air mail service in Southern California may be taken as a criterion of our air-mindedness—and there is no reason to doubt it—this section is destined to take the lead in the development of air navigation. Four times as much air mail in proportion to population has been handled in Southern California as in any similar territory in the world. The ratio of increase is illuminating. In the year 1925 the Los Angeles-Salt Lake line carried a total of 2,856,560 pieces of air mail. In 1927 this was increased to 3,122,800 and in 1928 the total was 15,804,000.

Previous to April, 1926, Southern California could make use of air mail only by sending its mail north by train to San Francisco. To overcome this handicap the Western Air Express was organized and established a direct air mail line to Salt Lake City. Another air mail line, already sanctioned by Postmaster-General Brown, will early in May connect Los Angeles with Kansas City and at the same time a new night transcontinental air mail service will be instituted.

No sign pointing to a rapid advance in aviation, when conducted by responsible agents, is more encouraging than the remarkable safety record made by the Los Angeles-Salt Lake route. During the past three years airplanes operating over this line have flown approximately 1,500,000 miles. In these flights no passenger or pilot has been killed. Not an ounce of mail has been lost or damaged. Not a plane has been lost. No forced landings have been made on account of mechanical trouble. The "on-time" schedule has been 99.6 per cent.

Los Angeles has good reason to celebrate April 17 with special honors.

**BONUS FOR BEHAVIOR**  
 Senator Weller introduces a bill at Sacramento which would extend to jail prisoners the same deductions as are accorded convicts in the penitentiaries. They would be given time off for good behavior and allowances for blameless service. The argument against this would be that most jail sentences are already shorter than they should be. However, a bit of bonus for good conduct and honorable living is not a bad idea in any field.

# LEE SIDE O' LA

by Lee Shippey

THERE'S a drive on to get out a big vote at the primary. Well, observes S. H., if all the candidates turn out and vote this primary ought to be a record-breaker.

Trustful to the End  
 R. E. E. Pomonio, sternly rebukes those who assert that lack of faith in the law is general. The law says pedestrians have the right of way, he points out, and the weekly casualty lists show how many people still have deep, abiding faith in it.

once. "Pie," he informed her, gravely. What a sin it would have been to punish that splendidly imaginative child for lying! It certainly was pie to him, even though it was made of mud.

Simple Faith  
 Speaking of youngsters, we've been trying not to tell this story ever since Easter. We've been accused of writing too much about children, especially our own. But this is a rather dull day for us, and on dull days we have no conscience.

Five-year-old John, living in another of our suburbs, dashed out early on Easter morning to look for a rabbit nest, and sure enough, he found one. It contained a blue hen egg, a pink hen egg, a bantam egg with Charlie Chaplin's face on it, a chocolate rabbit, three lollipops and a picture book. "My!" exclaimed John, in envious admiration. "Easter rabbit can lay just anything he wants to, can't he?"

Eloquent Adornments  
 The pawnbroker's wife wears lots of rings, Necklaces, bracelets and similar things. Just her her real jewelry. That she is a sort of Jewess. O. B. H.

Humorous Fiction  
 Clark Sellers, the "Sherlock Holmes" of the Hickman and Northcott cases, never reads Sherlock Holmes or any other detective stories. When we asked him what he thought about the popularity of mystery detective stories in the magazines, he smiled. "I doubt that any deep student of criminology ever reads them," he said, "except when he wants to relax and enjoy a hearty laugh. Most of them are utterly ridiculous."

Our Aged Forests  
 Some of the great California sequoias, scientists tell us, are thousands of years old. A very modern youth, trying to impress some Southlanders who had never seen the big trees, said: "They tell their ages by the rings on 'em. And, boy! some of those trees wear more rings than a pawnbroker's daughter!"

## THE CEMENT PLANT SCHEME

For many months the proposition has been agitated whether or not Los Angeles Mountain Park Company should be permitted to establish and operate a rock quarry and rock-crushing mills to produce and ship cement-making materials from the hills just above Beverly Boulevard. This agitation has been extensive and called forth very determined opposition.

This opposition bases its objection to know that the water department of the city has already promised the necessary supply. Such is the case and this despite the fact that residence property in the city and even within the district is clamoring for water. The amount of water this project will take is enormous. Ask the company's engineers how much and the simple arithmetic of it will be astounding, and the pity of it is that when the water is mixed with this impalpable rock dust, it is ruined and wasted. Until we get Colorado River water, can the city afford the waste?

Many engineers declare that this pipe line idea is impracticable and will not work. At this time it is hard to say which would be the worse. If it does work, Santa Monica Bay, as yet unspoiled, will be industrialized and the waters polluted. The waste lime rock powder, if this plan does not work, they will either ship the lime rock by truck over boulevards extending through the city or dump it in areas in Los Angeles or put up a cement burning and sacking mill, as they asked to do ten months ago. On that occasion their application met with a concerted opposition that they withdrew it. It is noteworthy that then they said their cement mill also would be noiseless, dustless and smokeless.

The Planning Commission has been holding hearings on this application for more than a month. Much of the testimony has been to the effect that their deposit is very valuable—a matter with which the Planning Commission has nothing to do. The issue is political. The question to be decided is a simple one. Should the present residential zoning of the area intended to be used for the cement rock quarry and mill be changed to an industrial zone? Correlated to this proposition are the questions: (1) Will the change result in benefit to residents within the district? (2) Have those residents been induced to invest because of guarantees against the encroachment of industry? (3) What will the future residential requirements demand and will the granting of this application interfere with the accommodation of those needs? (4) Has applicant placed itself in a position to negotiate and sales, in the position where it is morally estopped from doing the things it asks to do; and (5) would it be desirable for the Planning Commission to grant permission to break faith with the public and its purchasers?

The fact is that this pending application has prevented the development of the whole region which is endangered by it. For these many months, owners have refrained from building and prospective buyers have not bought, awaiting the outcome of this fight to gain millions to the irreparable damage of the city, present and future. The Planning Commission has not acted, not play at deciding whether or not the millions at stake are sufficient in number to establish the rights of smaller poorer owners. Despite the question and then if the decision is favorable to the Los Angeles Mountain Park Company, the present Council to overrule that decision.

It is felt that the present Council is opposed to this grant. Applicant feels that it will have a better chance with a newly elected Council. The election is within a month. Is the Planning Commission delaying its decision until after the election, hoping that a more favorable Council will be elected to support its decision?

**WHERE CAN I LEARN**  
 Linoleum Block Printing?  
 BY LOUISE L. TEMPLE  
 [Prepared in co-operation with the Los Angeles Evening Free School. Questions concerning free evening classes will be answered if stamped addressed envelope is enclosed. Address, Louise L. Temple, care of The Times.]

Linoleum block printing is an interesting phase of instruction being offered now in the commercial art classes at Serrano Evening High School, 1205 Pico Boulevard. Beginners learn this work quickly, and some of the work done is very beautiful. The most important part of the work is cutting the blocks, and it is essential that those interested should enroll at once so as to get full details for securing artistic effects.

There is no charge for instruction, and no text-book to buy. It is only necessary to go to the school and enroll for the course. This is part of the free public school system. The class meets on Monday and Thursday evenings, from 7 to 9 o'clock.

The instructor, Harold Hemmaway Jones, is an artist who has made a place for his pictures in the local art galleries. Talented to begin with, he has diligent in pursuit of his ideals, and in sympathetic understanding with all who desire to express themselves artistically.

**Football League for Europe**  
 With the development of football in Europe an international rugby league is now considered possible. England will send a team to Spain in May. The sport is becoming popular in France, Belgium, Germany, Switzerland and even Russia, so that observers believe that matches between other countries will be played in the near future, possibly this year.

That he has perfected, from snake venom, a cure for epilepsy, the claim, just announced, of the director of a South African snake farm.

**Doyle**  
 No it wasn't a kissing game.

**BOUT PROPOSED FOR JUNE DATE**  
 Manager Kearns to Consider Promoter's Bid  
 Other Cities Also in Field for Titular Fight  
 Melbrank Eager to Battle Middleweight King

**BY AUL LOWMY**  
 Jack Doyle yesterday offered to defend Walker \$100,000 to defend title in a bout with Ace Hickman, the widower who lived up to his name in playing Armand Foucault, a heavyweight, with consummate ease at Wrigley field Monday night. The proposed date is June 3. Walker is in the East, but his manager, Jack Kearns, is here and took the offer under consideration. He says promoters in Chicago, Detroit and New York are after the same match and he will wait the most attractive proposition. He refused to give Doyle a choice answer.

However, Hickman appeared in the Olympic efforts yesterday morning ready to sign instantly the dotted line for the Hickman match.  
 "I bet that fellow in Chicago, and (Continued on Page 2, Column 5)

# LATIN-AMERICAN DEAL OUTLINED

Great Company Planned for Exploitation  
Investment Opportunities to be Sought  
Chamber Hears New Yorker on Subject Today

An industrial and banking combine for the development and exploitation of industries in South American countries by American capital on a scale larger than ever before attempted was outlined yesterday by J. C. Luitwiler, president of Baker, Kellogg & Co., bankers of New York City, who organized the corporation.

This commercial firm, said to be backed by \$250,000,000 in resources of well-known American investment trusts, has as its design the origination or finding of opportunities for investment in the various industries of South American countries. These, in turn, will be investigated by a corps of experts maintained by the corporation and laid before the directors of reliable investment houses for action.

The trade name of the firm is the North and South America Corporation. An explanation of its program will be made by Mr. Luitwiler before a special luncheon of the Los Angeles Chamber of Commerce at 12:15 p.m. today. He will be introduced by John G. Mott, Los Angeles attorney, who accompanied President Hoover on his good-will tour of South America.

Individual investments in the southern countries are dangerous, Mr. Luitwiler pointed out, because of unsettled political conditions in many countries and because business administration on the part of the easy-going Latins. By this new means of furthering the nation's foreign trade, he declared, direct supervision of all investments will be maintained by experienced officials of the company.

Better international understanding is expected to result from such exploitation of the potentialities in South America, Mr. Luitwiler believes.

**CHILD CARE TO BE TAUGHT**  
Care of children under school age will be taught in a lecture course by Mrs. Rebekah K. Earle, director of the Normandie nursery school and member of the division of psychology and educational research in the Los Angeles city schools. In the summer session of the University of Southern California, Mrs. Earle is a lecturer at university college, Southern California and at Broad-oaks training school. Another California educator who will be a visiting faculty member in the summer session is Edward Hardy of the State Teachers' College in San Diego.

# MEXICANS WILL HEAR ABOUT DIET

Chautauque Sunday Also Will Feature Boxing Talk and Showing of Films

A Mexican Chautauque to enlighten local Mexicans on the value of proper diet and physical training will be conducted next Sunday at the Capital Theatre, 338 South Spring street. Free lectures on health subjects will be given at 2:30 and 7:30 p.m.

Zeferino Dominguez, a food expert, will discuss questions of diet and respiration in their relation to health, efficiency and longevity. In connection with his lecture there will be a motion picture of food products offered by a prominent Mexican agriculturist.

W. A. Chalking, D. C., will demonstrate electrical apparatus used in the production of violet and other rays and will illustrate his talk with films showing the circulation of the blood and the digestive processes.

Col. Mack Willard, a sporting authority, will talk on boxing, using Jack Dempsey as his particular text. Films will be shown of the ex-champion's ring battles with Firpo, Carpenter, Sharkey and Tunney; also a special film of Firpo made in his native Argentine.

**Council Votes Airport Funds**  
The expenditure of \$21,000 from the Airport Fund to install a lighting system at Mines Field, and of \$4500 to enlarge the restaurant which already is under construction, was authorized by the City Council yesterday. After the Council had approved the appropriations Woodruff De Silva, acting director of airports, said the lighting program and other improvements to the field are expected to be completed before the official opening of the Municipal airport, which has been set tentatively for June 2.

The appropriation made yesterday provides for the installation of the underground conduit and wiring for a complete field-lighting system, including boundary lights, flood lights, obstruction lights and a coded beacon, which will have a visibility of sixty-one miles. It will be the only beacon of its type on the Pacific Coast.

**APPEAL SET FOR TODAY**  
Appeals will be heard by the City Council today against the confirmation of the assessments for the improvement of Brandford avenue between San Fernando Road and Payton avenue and of Eighth avenue between Stauson avenue and Sixtieth street.

# TUBE VARIETY PUZZLES FAN

Manufacturers Issue Guide for Purchasers  
Modern Sets Require Several Types of Audions  
Misunderstanding Result of Careless Buying

BY DR. RALPH L. POWER  
So many misunderstandings have arisen between dealers and fans in the purchase of tubes and the functions of different types in the modern set, that the Radio Manufacturers' Association has issued a statement for guidance of fans and the trade.

"So many tubes for different purposes have been developed," says H. B. Richmond, of Cambridge, Mass., director of the engineering division, "that the public should be advised of the functions of different types of tubes."

"To tell the purchaser of a set how many tubes he must buy or maintain, and to inform him how many are 'radio tubes' as formerly thought of, and how many are special tubes for better elimination or automatic volume control, the engineering division has recommended that these two classes of tubes be divided into their respective groups and that their numbers be separated by a dash, as 6-3."

In the first group would be placed those tubes used as radio frequency amplifiers, detectors, oscillators and audio frequency amplifiers.

In the second group would go the special service tubes such as voltage control or ballast tubes, automatic volume control and rectifier tubes.

**LECTURES FROM STATE UNIVERSITY**  
LEXINGTON (Ky.) April 16. (P) Daily radio programs are to be broadcast by the University of Kentucky over WIAE, at Louisville.

Negotiations have been completed for the installation of a leased wire between the university and the station, eighty miles away.

Five fifteen-minute educational programs and a one-hour musical program comprise the weekly broadcast. Educational subjects, which are to be given in the morning, will include agricultural and scientific talks of a popular nature.

**CANADIANS TO INSTALL**  
The Canadian Club of Southern California will install its newly elected officers tomorrow evening at the clubrooms, Stowell Hotel, 1410 South Spring street. President G. M. Grant invites all past and present Canadians to attend. At the same time the Native Daughters of Canada will install their new executives, after which a social reception and entertainment will take place.

Price, less tubes, \$375. Kolster offers a wide price range of distinctive models for A. C. or D. C. operation or for batteries.

YOUR STUCCO HOUSE NEED PAINT? . . . THEN REMEMBER—

## You have TWO ENDS of a paint brush to consider

WHEN you paint your stucco house, give both ends of the paint brush serious consideration. For the handle end it pays to select a skilled painter—a master of his craft. It pays also to have pure lead paint on the other end of the brush.

House-owners have found that this combination provides long-lasting, beautiful paint work for all surfaces, including stucco . . .

Pure lead paint, made with Dutch Boy white-lead, covers stucco with a film that does not scale or peel off. It prevents cracking of the stucco by keeping moisture out. It seals up any tiny cracks that may already have developed. And this paint is colored to order by the painter to the exact tint you want.

Let us send you detailed information about the use of pure lead paint on stucco. Ask us also for a new booklet, "The House We Live In," which aids in the selection of colors for interior and exterior painting.

Dutch Boy white-lead is sold by paint dealers everywhere

# CLEAN-UP BEGUN AT COUNTY JAIL

Peoples Will Check on All Lawyers' Passes  
Bondsmen Assured to Be Violating Rules  
Voiced to End All Illegal Practices

A clean-up campaign against lawyer practices in the County Jail, Capt. Peoples said, which has a check to be made by his office, yesterday ordered a check to be made by his office of all passes used by men of professions to gain access to the jail for interviews with prisoners.

Complete co-operation already has been given to the matter by the State Bar Association. Capt. Peoples said, which has an alphabetical list of all passes admitted to the bar in the jail has been placed in the office, where all passes are checked and, to determine if the passes now in use are issued to Capt. Peoples, he received information that attorneys' passes have been obtained by persons who are not entitled to them and are being used for illegal purposes by bondsmen and runners for attorneys seeking prisoners.

At the same time Capt. Peoples announced that he is making an investigation into the activities of bondsmen and their representatives promoting their interests in the County Jail through the use of passes. To continue this campaign, he has stopped all such passes in the County Jail, Capt. Peoples declared.

# War Mothers Pay Tribute to Poet Hero

They wrote Joyce Kilmer, the poet, before he went to war and paid the supreme sacrifice. Yesterday, in reverent memory of him and his memory, members of the Los Angeles chapter of American War Mothers planted two young trees in front of the city.

It is a tender sapling was set in the soil on the grounds of the city school, in the presence of the pupils to whom the trees were dedicated.

From there the War Mothers marched out to Exposition park, where, at 2 p.m., planted the trees with similar fitting ceremonies.

The trees were planted by Mrs. A. T. Tamm of 847 Laveria, Terrell, president of the chapter. Mrs. Tamm is the daughter of the late Senator Tamm. She was introduced by Frances Forrester, president of the chapter.

Mrs. Ida Baker, past president, and Mrs. Alice Manning, State officer, and Mrs. Ruth Robertson, flag bearer, also participated.

# THE GOOD LOOKS HELD WORK EXCUSE

West, by their support and patronage, have made Western Air Express the most successful air transport company in the world. Our "Third Anniversary" Excursion rates now in effect are offered as evidence of our appreciation of that support.
